MESSAGE

Health Dynamics of India is an annual publication of Ministry of Health and Family Welfare that provides comprehensive statistics on health infrastructure, hospital beds and human resources across public health facilities in the country. It serves as an important source of evidence for policy formulation, programme planning & monitoring and informed decision-making in the health sector.

It gives me immense pleasure to present "Health Dynamics of India: Infrastructure and Human Resources, 2024-25". Ensuring equitable, accessible, affordable and quality healthcare remains a key priority of the Government for the people. In this context, reliable and timely information on the availability and distribution of health infrastructure and human resources is essential for effective health system planning and strengthening service delivery.

This edition also provides information on Other Public Health Facilities, including Central Armed Police Forces, Railways and ESIC/ESIS, CGHS as well as Central Government Public Health Facilities, providing a broader perspective of healthcare infrastructure and human resources available across the country. The information will make the publication more comprehensive and useful.

The data and statistics presented in this publication will serve as a valuable resource for policymakers, programme managers, academicians, researchers and other stakeholders engaged in health planning, implementation and monitoring.

I place on record my appreciation for the dedicated efforts of the entire team involved in bringing out this publication.

MESSAGE

I am pleased to present "Health Dynamics of India: Infrastructure and Human Resources, 2024–25", an annual publication of the Ministry of Health and Family Welfare. The publication provides a detailed overview of the availability and distribution of health infrastructure, beds and human resources across the country's States and Union Territories. Over the years, it has emerged as an important reference for policymakers, programme managers, researchers and other stakeholders engaged in health planning, policy formulation and evidence-based decision-making.

The publication presents an updated overview of the status and distribution of public health facilities and health workforce, including doctors, specialists, nurses, pharmacists and other healthcare personnel. The information provides valuable insights into existing capacities and facilitates identification of gaps and emerging requirements, thereby supporting effective planning for strengthening health systems and improving healthcare delivery across the country.

The Government of India, under visionary leadership of Hon'ble Prime Minister Shri Narendra Modi ji, remains committed to strengthening the country's health system through sustained efforts towards expanding health infrastructure, enhancing human resources, improving service delivery and ensuring equitable access to quality healthcare. Reliable data on health facilities and workforce is fundamental to translating these efforts into effective and targeted interventions.

The 2024–25 edition further broadens the scope of the publication by presenting information on Other Public Health Facilities, including Central Armed Police Forces (CAPF's), Railways and ESIC/ESI, CGHS as well as Central Government Public Health Facilities. This expanded coverage provides a more comprehensive picture of the public healthcare resources available in the country.

I am confident that this publication will serve as a valuable resource for strengthening health system planning, optimizing available capacities and supporting the Ministry's endeavour to ensure accessible, affordable, equitable and quality healthcare for all.

I congratulate the Statistics Division of the Ministry and all those involved in the compilation of the publication of Health Dynamics of India 2024–25 for their dedicated efforts and valuable contribution.

Message

It is my immense privilege and pleasure to present the 2024-25 edition of "**Health Dynamics of India: Infrastructure and Human Resources.**" The publication offers an updated and comprehensive overview of the country's public health infrastructure and human resources across different levels of healthcare facilities exists in States and Union Territories.

As India advances towards Universal Health Coverage and a stronger, resilient health system, credible and timely data remains fundamental to effective health planning. Health Dynamics of India, 2024-25 provides an important evidence base for understanding the availability and distribution of resources, enabling policymakers and programme managers to assess capacities, identify gaps, prioritize interventions and promote efficient utilization of health resources.

The present edition further expands the scope of information by covering Other Public Health Facilities, including CAPF, Railways and ESI/ESIS, CGHS as well as Central Government Public Health Facilities. This wider coverage offers a more holistic view of public healthcare resources and supports informed planning and coordination.

The publication will contribute to efforts towards reducing regional disparities, strengthening health infrastructure, optimizing human resources and improving access to quality healthcare, particularly in underserved areas.

I congratulate and appreciate the Statistics Division of the Ministry of Health and Family Welfare for its dedicated efforts in compiling and bringing out this important publication. I extend my best wishes for its continued contribution towards evidence-based health planning and a healthier, more equitable India.

MESSAGE

Ensuring accessible, equitable, affordable and quality healthcare for every citizen remains a key priority for the Government of India. Given the country's vast geographical spread, diverse population and varying socio-economic conditions, healthcare requirements differ considerably across States and Union Territories. Strengthening a resilient health system therefore requires adequate infrastructure, skilled human resources and reliable information to support effective planning and service delivery.

The **Health Dynamics of India: Infrastructure and Human Resources** publication serves as an important foundation for evidence-based health planning and policymaking. The 2024–25 edition provides comprehensive information on public health infrastructure, hospital beds and human resources across States and Union Territories (UTs). In addition to Government health facilities in States/ UTs, the present edition expands the scope of information to include Other Public Health Facilities, such as Central Armed Police Forces (CAPFs), Railways, ESIC/ESI and CGHS as well as Central Government Public Health Facilities, thereby providing a broader perspective of the country's public healthcare capacity.

The preparation of this publication has been made possible through the continued cooperation and concerted efforts of State and UT Health Departments, whose contribution is vital to ensuring the availability of accurate, timely and reliable data.

The information presented in this edition will support identification of infrastructure and workforce gaps, prioritization of interventions, efficient resource allocation and strengthening of health system planning. It will also contribute to monitoring progress towards national health goals and improving the responsiveness and effectiveness of healthcare services.

I am confident that Health Dynamics of India 2024–25 will continue to serve as a valuable resource for policymakers, programme managers, researchers and other stakeholders in advancing evidence-based decision-making and strengthening India's health system.

FOREWORD

Reliable and comprehensive health statistics are fundamental to effective health-sector planning, informed decision-making and continuous assessment of the health system. As India advances towards more accessible, equitable and quality healthcare, timely information on health infrastructure and human resources assumes increasing importance for identifying gaps, prioritising interventions and strengthening service delivery.

The publication "Health Dynamics of India: Infrastructure and Human Resources 2024–25", formerly known as "Rural Health Statistics", is an important source of statistical information on the country's health system. Over the years, the publication has evolved in scope and coverage to reflect the changing requirements of the health sector. The present edition brings together information on health infrastructure and human resources across rural, urban and tribal areas, covering different levels of public health facilities and other health institutions. The data presented in this edition pertain to the position as on 31st March 2025.

The information compiled in this publication provides a useful evidence base for policy formulation, programme monitoring, resource planning and assessment of the availability of health infrastructure and human resources across States and Union Territories. It also supports identification of regional variations and emerging requirements, thereby facilitating more informed planning and implementation of health programmes.

The preparation of this publication has been made possible through the sustained cooperation of all States and Union Territories and the dedicated efforts of their Statistics Divisions and field-level functionaries. Their contribution towards data collection, compilation, validation and timely submission has been vital in strengthening the quality and reliability of the information presented.

I am confident that Health Dynamics of India 2024–25 will serve as a valuable reference for policymakers, programme managers, researchers and other stakeholders working towards further strengthening India's health system.

MESSAGE

It is a great pleasure to bring forth the 2024–25 edition of "Health Dynamics of India: Infrastructure and Human Resources". Over the years, this publication has developed into a valuable repository of information on the country's public health system, bringing together data on health facilities, hospital beds and the health workforce across States and Union Territories. It provides an important basis for understanding the evolving capacity of the health system and supporting informed health-sector planning.

A strong health system depends not only on the creation of infrastructure but also on the availability of an appropriately skilled workforce and its effective deployment. In this regard, credible and systematically compiled data are essential for understanding the existing situation, recognizing variations across regions and determining areas that require greater attention. It also facilitates the identification of additional key resources for better management of the public health delivery system.

The 2024–25 edition marks a further expansion in the scope of the publication. Alongside information relating to State/UT Government health facilities—from Sub-Centres and Primary Health Centres to Community Health Centres, Sub-District Hospitals, District Hospitals and Medical Colleges—this edition incorporates data on Other Public Health Facilities, including Central Armed Police Forces (CAPF's), Railways, ESIC/ESI and CGHS as well as Central Government Public Health Facilities. Inclusion of these facilities provides a wider view of the healthcare resources contributing to public service delivery in the country.

The preparation of such a comprehensive publication is a collective endeavour. I acknowledge with appreciation the cooperation extended by the States and Union Territories, their health departments, nodal officers and field-level functionaries in furnishing and validating the required information through the HMIS platform.

I extend my sincere congratulations to the Statistics Division and all associated teams for their sustained efforts in compiling this highly comprehensive and critical publication. I am confident that Health Dynamics of India 2024–25 will be a useful reference for administrators, programme managers, researchers and other stakeholders, and will contribute to strengthening the evidence base for planning and improving the delivery of healthcare services across the country.

PREFACE

Over the past decade, India's health sector has witnessed significant transformation through sustained policy initiatives, increased investments and concerted efforts towards achieving Universal Health Coverage, in line with the vision of the **National Health Policy, 2017**. While considerable progress has been made in strengthening health services and improving health outcomes, addressing gaps in health infrastructure, human resources and their equitable distribution remains essential for ensuring accessible and quality healthcare for all.

2. Against this backdrop, I am pleased to present the "**Health Dynamics of India: Infrastructure and Human Resources, 2024–25**". The publication provides a comprehensive and standardized overview of the country's health infrastructure and human resources, based on data reported by the States and Union Territories on Health Management Information System (HMIS) Portal. The present edition incorporates data as on 31st March 2025 and provides valuable information on health facilities ranging from Sub-Centres to Medical Colleges, along with the availability and distribution of healthcare personnel across States and Union Territories.

3. A significant feature of this edition is the expanded coverage of health facilities managed by other Central Ministries/Departments. For the first time, information on Other Public Health Facilities, including Central Armed Police Forces (CAPF's), Railways, Employees' State Insurance Corporation/Employees' State Insurance Scheme (ESIC/ESIS), Central Government Health Scheme (CGHS) and Central Government Public Health Facilities, have been incorporated. This broader coverage provides a more comprehensive picture of the public healthcare infrastructure and human resources available across the country and will facilitate better assessment and planning of healthcare capacities.

4. The publication has been organized into two parts. **Part I** presents an overview of the health system in India and State/UT-wise profiles, with information presented through tables, maps and graphical representations wherever appropriate for ease of understanding. **Part II** provides detailed and comparative information on health infrastructure and human resources, including comparisons over time, district-wise health facilities, rural/urban distribution, tribal areas, building status and human resources of major public health facilities such as Sub-Centres, Primary Health Centres, Community Health Centres, Sub-District Hospitals, District Hospitals and Medical Colleges.

Tel. No.: 011-23736982, E-mail: rakesh.maurya@gov.in

5. The quality and comprehensiveness of this publication are a result of the collective efforts of States and Union Territories, whose health departments, nodal officers and field functionaries have contributed to the timely reporting and validation of data through the HMIS portal. I express my sincere appreciation for their continued cooperation and commitment.

6. I also acknowledge the valuable contribution of the HMIS team of the Statistics Division, led by Shri Vikram Tanwar, Director (Statistics), whose guidance, coordination and technical inputs have contributed significantly to the compilation and finalization of this publication. I also appreciate the contribution of Dr. Abhishek Kumar, Senior Consultant for their dedicated efforts in data compilation, validation, analysis and technical support, which have supported the successful completion of this edition.

7. I am confident that Health Dynamics of India 2024–25 will serve as a valuable resource for policymakers, programme managers, researchers and academicians, supporting evidence-based planning, identification of gaps, efficient resource allocation and strengthening of healthcare delivery across the country.

8. We welcome suggestions for the enhancement and further utility of this publication from all Central Ministries/ Departments and Stakeholders. These may be communicated to us at: hmis.mohfw@nic.in.

Acknowledgement

The publication **"Health Dynamics of India: Infrastructure and Human Resources, 2024–25"** is an important endeavour of the Ministry of Health and Family Welfare to present a comprehensive overview of the availability of health infrastructure and human resources across the country. The publication provides valuable evidence on the status and distribution of health facilities, beds and human resources in the public health system and serves as an important reference for planning, monitoring and policy formulation.

I express my sincere appreciation to all the **States and Union Territories** for their continued cooperation and for providing, validating and updating the requisite information through the Health Management Information System (HMIS). The sustained efforts of the State and UT Health Departments, State Programme Management Units, District Health Authorities and health facilities have been instrumental in improving the completeness, consistency and reliability of the information compiled in this publication.

I also acknowledge the valuable contribution of various **Central Government health institutions and organisations**, including facilities under different administrative arrangements, whose participation has further strengthened the coverage and comprehensiveness of the present edition. Their cooperation has enabled the publication to provide a broader perspective on the health infrastructure and human resources available across different segments of the healthcare system.

My appreciation also goes to the HMIS team in data compilation, validation, analysis and reconciliation. I particularly acknowledge the contribution of **Dr. Abhishek Kumar**, Senior Consultant, whose coordination and close supervision of HDI-related activities have significantly strengthened the completeness, consistency and reliability of the reported information.

I would also like to acknowledge the guidance and support received from the senior officers of the Ministry of Health and Family Welfare, as well as the contributions of all officials and stakeholders associated with the HMIS Division.

I am confident that **Health Dynamics of India 2024–25** will continue to serve as a useful source of evidence for researchers, programme managers, policymakers and other stakeholders working towards strengthening the health system and improving health outcomes in the country.

I look forward to receiving valuable feedback and suggestions from stakeholders, which will help further strengthen the content, quality, coverage and usefulness of future editions of Health Dynamics of India. The feedback may be sent to us at: hmis.mohfw@nic.in.

SRS: Sample Registration System

SSB: Sashastra Seema Bal

SSKH: Smt. Sucheta Kriplani Hospital

ULBs: Urban Local Bodies

UCHC: Urban Community Health Center

UPHC: Urban Primary Health Center

Methodology

1. Health Dynamics of India (Infrastructure & Human Resources) formerly known as "Rural Health Statistics" is the annual publication of Ministry of Health & Family Welfare. This comprehensive report is based on the continuous flow of disaggregated data on Infrastructure and Human Resources uploaded onto the Health Management Information System (HMIS) portal by health facilities across all States and Union Territories (UTs). The publication plays a pivotal role in local planning, facilitating programme implementation, enhancing management practices and enabling robust monitoring & evaluation processes. It serves as a vital tool for stakeholders at various levels of the healthcare system, empowering them with insights into the current health landscape, resource allocation and areas for improvement. Through this holistic approach and reliance on up-to-date information, the publication contributes significantly to advancing healthcare outcomes and fostering evidence-based decision-making nationwide.

2. The responsibility for recruiting Human Resources (HR) and managing Infrastructure within the public healthcare sector lies within the purview of the individual States and Union Territories (UTs). However, while the States/UTs retain authority over these matters, they operate within the framework of guidelines provided by the Government of India. This collaborative approach ensures a cohesive National Strategy while allowing flexibility to address regional needs effectively.

3. The Health Management Information System (HMIS) portal serves as a central repository for a wealth of data uploaded by healthcare facilities across the country. States/UTs play a crucial role in ensuring the accuracy and reliability of this data, as it forms the foundation for informed decision-making at both local and national levels.

4. Data is gathered and recorded at the grassroots level on a monthly basis from a range of public health facilities, such as Sub-Centers, Primary Health Centers, Community Health Centers, Sub-District Hospitals and District Hospitals. This data encompasses details on infrastructure, facilities available, provided services by the facilities, equipment inventory and human resources. Based on the data submitted, the system generates State/UT-wise reports on multiple indicators.

5. Once the data is uploaded onto the HMIS portal, a rigorous process ensues to validate its integrity. The initial step involves analyzing the draft data, comparing it with previous years' records to identify any discrepancies. This comparative analysis serves as a quality control measure, highlighting inconsistencies that may require further scrutiny. Any disparities or irregularities discovered during this stage are promptly communicated to all States/UTs for collective review and resolution. This collaborative approach fosters transparency and accountability, ensuring that data discrepancies are addressed comprehensively. After receiving feedback from GoI and addressing any identified issues, States/UTs finalize their

datasets on HR and Infrastructure. The final data undergoes through various scrutiny and thorough analyses to detect and rectify any remaining inconsistencies.

6. The compilation and analysis of this data provides valuable insights into the current state of Healthcare Infrastructure and Human Resource distribution nationwide. This information is instrumental in guiding resource allocation, strategic planning and policy formulation at both State and National levels. Furthermore, the data analysis process enables the identification of trends, patterns, and areas requiring targeted intervention. By pinpointing areas of improvement and potential challenges, policymakers can develop targeted initiatives aimed at enhancing healthcare delivery and outcomes.

7. In essence, the collaborative effort between the Government of India, States and UTs in managing HR recruitment, Infrastructure and healthcare data underscores a commitment to excellence in healthcare governance. Through robust data management practices and collaborative decision-making processes, stakeholders strive to ensure the provision of equitable, accessible and high-quality healthcare services to entire population of the country.

भाग 1

भारत में स्वास्थ्य देखभाल प्रणाली

भारत में स्वास्थ्य देखभाल प्रणाली

1.1 स्वास्थ्य देखभाल प्रणाली संस्थानों, संसाधनों और कर्मियों का एक संगठित ढांचा है जिसे किसी आबादी को स्वास्थ्य सेवाएं प्रदान करने के लिए डिज़ाइन किया गया है। इसमें प्राथमिक देखभाल केंद्रों, अस्पतालों, विशेष इकाइयों और जन स्वास्थ्य कार्यक्रमों जैसे विभिन्न स्तरों की सुविधाओं के माध्यम से प्रदान की जाने वाली निवारक, प्रोत्साहक, उपचारात्मक, पुनर्वास संबंधी और उपशामक देखभाल शामिल है। एक प्रभावी स्वास्थ्य देखभाल प्रणाली समान पहुँच, देखभाल की गुणवत्ता, वित्तीय सुरक्षा और निर्बाध सेवाएं सुनिश्चित करती है। इसे शासन, वित्तपोषण तंत्र, प्रशिक्षित मानव संसाधन, बुनियादी ढाँचे, चिकित्सा प्रौद्योगिकियों और सुदृढ़ स्वास्थ्य सूचना प्रणालियों द्वारा सहायता प्रदान की जाती है जो समग्र स्वास्थ्य परिणामों में सुधार के लिए मिलकर काम करते हैं। भारत की स्वास्थ्य देखभाल प्रणाली एक त्रि-स्तरीय प्रणाली है, जिसमें उप-केंद्र (शहरी और ग्रामीण), प्राथमिक स्वास्थ्य केंद्र (शहरी और ग्रामीण) और सामुदायिक स्वास्थ्य केंद्र (शहरी और ग्रामीण) देश में प्राथमिक स्वास्थ्य देखभाल प्रणाली के तीन स्तंभ हैं। इसी प्रकार, जिला अस्पताल (डीएच), उप-जिला अस्पताल (एसडीएच) और प्रथम रेफरल इकाई – सामुदायिक स्वास्थ्य केंद्र मध्यम स्तरीय देखभाल सेवाएँ प्रदान करते हैं, जबकि मेडिकल कॉलेज और राज्य-स्तरीय संस्थान विशिष्ट देखभाल सेवाएँ प्रदान करते हैं।

1.2 भारत सरकार का स्वास्थ्य और परिवार कल्याण मंत्रालय राज्यों/संघ राज्य क्षेत्रों को जन स्वास्थ्य सुविधाओं को सुदृढ़ करने के लिए तकनीकी और वित्तीय सहायता प्रदान करता है। स्वास्थ्य संबंधी चुनौतियों, विशेष रूप से ग्रामीण क्षेत्रों में, से निपटने के लिए, राष्ट्रीय ग्रामीण स्वास्थ्य मिशन (एनआरएचएम) की शुरुआत 2005 में की गई थी, ताकि जन स्वास्थ्य सुविधाओं का उपयोग करने वाले सभी लोगों को सुलभ, किफायती और गुणवत्तापूर्ण स्वास्थ्य सेवा प्रदान करने के लिए राज्य/संघ राज्य क्षेत्र सरकारों के प्रयासों में सहायता की जा सके। वर्तमान में, एनआरएचएम "राष्ट्रीय स्वास्थ्य मिशन (एनएचएम)" का एक उप-मिशन है। राष्ट्रीय स्वास्थ्य मिशन (एनएचएम) में इसके दो उप-मिशन, **राष्ट्रीय ग्रामीण स्वास्थ्य मिशन (एनआरएचएम)** और **राष्ट्रीय शहरी स्वास्थ्य मिशन (एनयूएचएम)** शामिल हैं। इसके मुख्य कार्यनीतिक घटकों में स्वास्थ्य प्रणाली का सुदृढ़ीकरण, प्रजनन-मातृ-नवजात-शिशु और किशोर स्वास्थ्य (आरएमएनसीएच+ए) और संचारी तथा गैर-संचारी रोग शामिल हैं। एनएचएम का उद्देश्य देश में लोगों की जरूरतों के प्रति जवाबदेह और संवेदनशील प्राथमिक स्वास्थ्य सेवाओं को सुदृढ़ करने के लिए समान, किफायती और गुणवत्तापूर्ण स्वास्थ्य देखभाल सेवाओं तक सार्वभौमिक पहुंच प्राप्त करना है। राष्ट्रीय स्वास्थ्य मिशन (एनएचएम) के तहत राज्यों/संघ राज्य क्षेत्रों को उनके कार्यक्रम कार्यान्वयन योजनाओं (पीआईपी) में बताई गई आवश्यकताओं के आधार पर, मानदंडों के अनुसार स्वास्थ्य देखभाल सुविधाओं को सुदृढ़ करने के लिए सहायता प्रदान की जाती है और यह सहायता उनके समग्र संसाधन सीमा के भीतर होती है। एनएचएम के तहत, राज्यों/संघ राज्य क्षेत्रों को देश में प्राथमिक स्वास्थ्य सेवाओं को सुदृढ़ करने के लिए अनेक कार्यकलापों हेतु भी सहायता प्रदान की जाती है। प्रधानमंत्री आयुष्मान भारत स्वास्थ्य

अवसंरचना मिशन (पीएम-एबीएचआईएम) 25 अक्टूबर 2021 को शुरू किया गया था, जिसका उद्देश्य जन स्वास्थ्य अवसंरचना में, विशेष रूप से शहरी और ग्रामीण दोनों क्षेत्रों में गहन देखभाल सुविधाओं और प्राथमिक देखभाल में महत्वपूर्ण कमियों को दूर करना है। इस योजना में केंद्रीय क्षेत्र (सीएस) और केंद्र प्रायोजित योजना (सीएसएस) के घटक शामिल हैं, जिसके तहत राज्यों/संघ राज्य क्षेत्रों को जिला और ब्लॉक-स्तरीय स्वास्थ्य अवसंरचना को मजबूत करने के साथ-साथ राष्ट्रीय संस्थानों के विस्तार के लिए सहायता प्रदान की जाती है।

1.3 31 मार्च 2025 तक की स्थिति के अनुसार, देश में कार्यशील स्वास्थ्य देखभाल सुविधा केंद्रों की स्थिति इस प्रकार है:

- **उप-केंद्र (एससी):** देश में कुल 176021 उप-केंद्र कार्यशील हैं, जिनमें ग्रामीण क्षेत्रों में 168364 उपकेंद्र और शहरी क्षेत्रों में 7657 उपकेंद्र हैं।

- **प्राथमिक स्वास्थ्य केंद्र (पीएचसी):** देश में 32411 प्राथमिक स्वास्थ्य केंद्र कार्यशील हैं, जिनमें ग्रामीण क्षेत्रों में 25886 पीएचसी और शहरी क्षेत्रों में 6525 पीएचसी हैं।

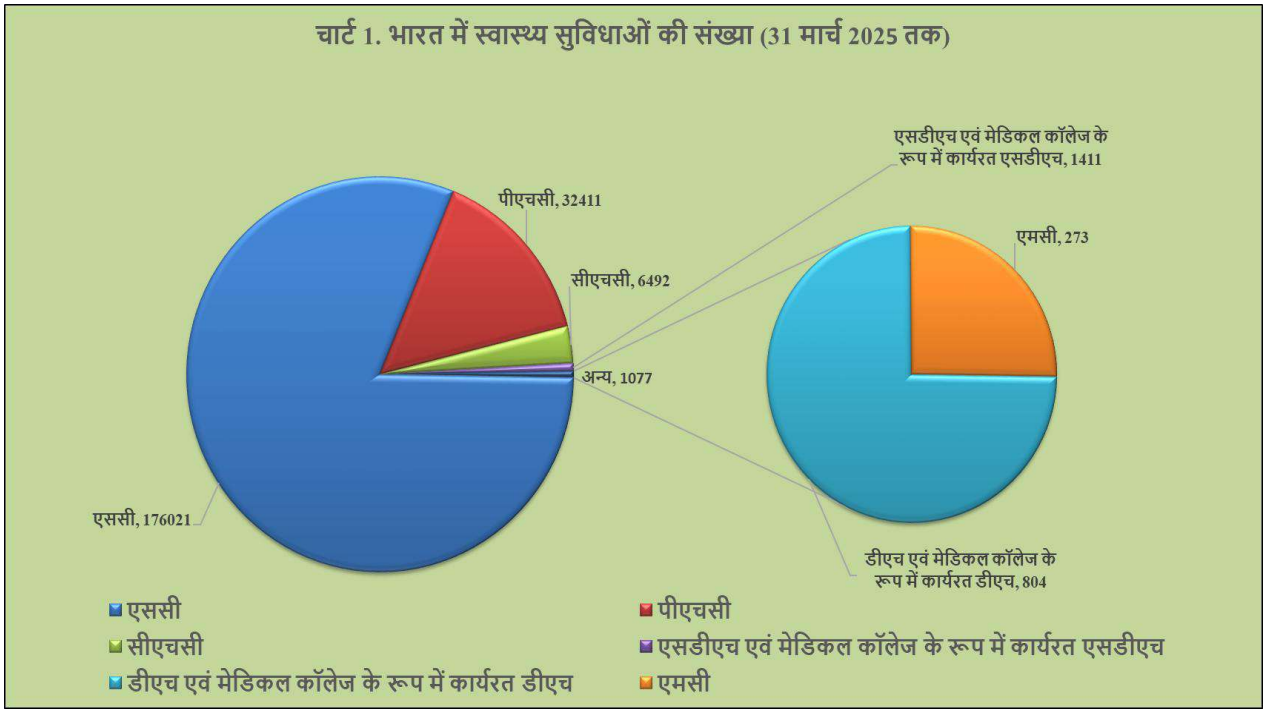

- **सामुदायिक स्वास्थ्य केंद्र (सीएचसी):** देश में 6492 सामुदायिक स्वास्थ्य केंद्र कार्यशील हैं, जिनमें 5663 ग्रामीण सीएचसी और 829 शहरी सीएचसी हैं।

- **उप-मंडल/जिला अस्पताल (एसडीएच):** देश में ग्रामीण और शहरी दोनों क्षेत्रों की सेवा प्रदान करने वाले कुल 1411 उप-मंडल / जिला अस्पताल कार्यशील हैं। इनमें से, 1408 स्वतंत्र उप-मंडल / जिला अस्पताल हैं, जबकि 3 स्वतंत्र उप-मंडल / जिला अस्पताल मेडिकल कॉलेज के रूप में कार्यरत हैं।

- **जिला अस्पताल (डीएच):** देश में ग्रामीण और शहरी दोनों क्षेत्रों की सेवा करने वाले कुल 804 जिला अस्पताल कार्यशील हैं। इनमें से, 677 स्वतंत्र (स्टैंडएलोन) जिला अस्पताल हैं, जबकि 127 जिला अस्पताल मेडिकल कॉलेज के रूप में कार्यशील हैं।

- **मेडिकल कॉलेज (एमसी):** देश में ग्रामीण और शहरी दोनों क्षेत्रों में सेवा प्रदान करने वाले 273 स्वतंत्र (स्टैंडएलोन) मेडिकल कॉलेज कार्यशील हैं।

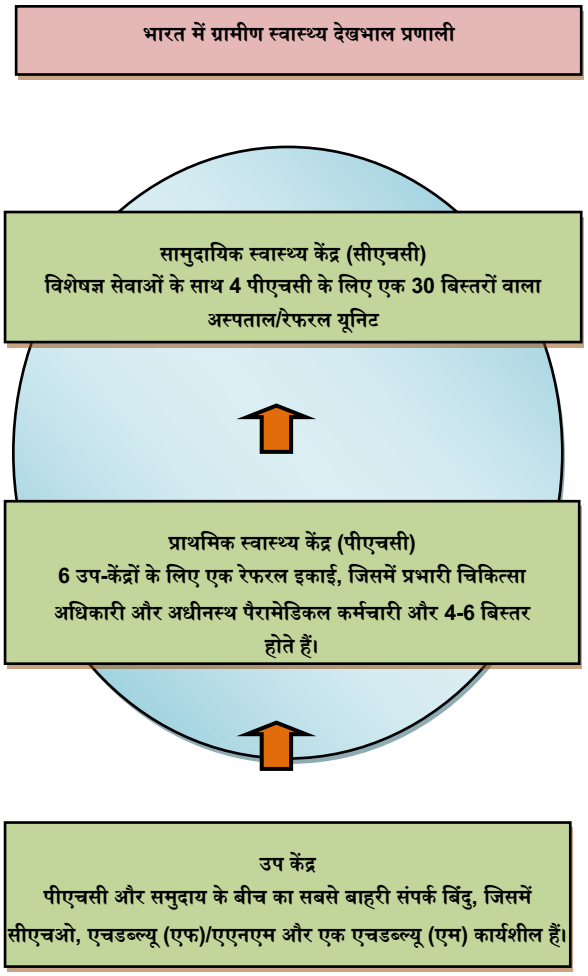

चार्ट-1, भारत में 31 मार्च 2025 तक कार्यशील स्वास्थ्य सुविधाओं का आलेखीय निरुपण दर्शाता है।

भारत में ग्रामीण स्वास्थ्य देखभाल प्रणाली

संरचना और वर्तमान परिदृश्य

2.1 देश के ग्रामीण क्षेत्रों में स्वास्थ्य देखभाल का बुनियादी ढांचा निम्नलिखित जनसंख्या मानदंडों पर आधारित एक त्रि-स्तरीय प्रणाली के रूप में मौजूद है:

ग्रामीण क्षेत्रों में स्वास्थ्य देखभाल अवसंरचना प्रणाली के मानदंड

केन्द्र	जनसंख्या मानदंड *	
	मैदानी क्षेत्र	पहाड़ी/आदिवासी/दुर्गम क्षेत्र
स्वास्थ्य उप केंद्र	5000	3000
प्राथमिक स्वास्थ्य केंद्र	30000	20000
सामुदायिक स्वास्थ्य केंद्र	120000	80000
किसी विशेष सुविधा केंद्रों (एससी, पीएचसी और सीएचसी) की सेवाओं के अंतर्गत आने वाले व्यक्तियों की संख्या		

2.2 31 मार्च 2025 तक की स्थिति के अनुसार, देश के ग्रामीण क्षेत्रों में 168364 उप-केंद्र (एससी), 25886 प्राथमिक स्वास्थ्य केंद्र (पीएचसी) और 5663 सामुदायिक स्वास्थ्य केंद्र (सीएचसी) कार्यशील हैं। ग्रामीण क्षेत्रों में उप-केंद्रों (एससी), प्राथमिक स्वास्थ्य केंद्रों (पीएचसी) और सामुदायिक स्वास्थ्य केंद्रों (सीएचसी) के संचालन का राज्य/संघ राज्य क्षेत्र-वार विवरण खंड III, तालिका 1 में दिया गया है।

उप-केंद्र (एससी)

2.3 उप-केंद्र प्राथमिक स्वास्थ्य देखभाल प्रणाली और समुदाय के बीच सबसे बाहरी और पहला संपर्क बिंदु है। इन उप-केंद्रों को लोगों के साथ पारस्परिक संचार स्थापित करने, व्यवहार में परिवर्तन लाने और मातृ एवं शिशु स्वास्थ्य, परिवार कल्याण, पोषण, टीकाकरण जैसे विभिन्न कार्यक्रमों, दस्त नियंत्रण और संचारी रोगों के साथ-साथ गैर-संचारी रोगों के लिए सेवाएं प्रदान करने के कार्य सौंपे गए हैं। प्रत्येक उप-केंद्र का प्रबंधन कम से कम एक सहायक नर्स मिडवाइफ (एएनएम) / महिला स्वास्थ्य कार्यकर्ता और एक पुरुष स्वास्थ्य कार्यकर्ता द्वारा किया जाना है। राष्ट्रीय स्वास्थ्य मिशन (एनएचएम) के तहत, संविदा के आधार पर एक अतिरिक्त दूसरी एएनएम के लिए प्रावधान है। कुछ स्थानों पर, छह उप-केंद्रों की देखरेख के लिए एक लेडी हेल्थ विज़िटर (एलएचवी) को भी नियुक्त किया जाता है। राष्ट्रीय स्तर पर, वर्ष 2024 से ग्रामीण क्षेत्रों में उपकेंद्रों की संख्या में 1134 की वृद्धि हुई है। राजस्थान के बाद पश्चिम बंगाल, उत्तर प्रदेश, बिहार, असम और कर्नाटक राज्यों में उपकेंद्रों की संख्या में महत्वपूर्ण वृद्धि देखी गई **(खंड I, तुलनात्मक विवरण 11)**। इसके अतिरिक्त, सेवा वितरण और कार्यक्रम आवश्यकताओं को पूरा करने के लिए एएएम-एसएचसी में सामुदायिक स्वास्थ्य अधिकारियों (सीएचओ) को तैनात किया गया है। टीम लीड और प्राथमिक स्वास्थ्य देखभाल चिकित्सक के रूप में, सीएचओ आवश्यक स्वास्थ्य सेवाएं प्रदान करते हैं, अपने कवरेज क्षेत्रों के भीतर समुदायों के स्वास्थ्य की देखरेख करते हैं, और विभिन्न राष्ट्रीय स्वास्थ्य कार्यक्रमों के प्रभावी कार्यान्वयन को सुगम बनाते हैं। 31 मार्च 2025 तक की स्थिति के अनुसार, देश में 1,16,769 सीएचओ पदस्थ हैं। **(खंड IV, तालिका 15)**

खंड III, तालिका 1

- **31 मार्च, 2025 तक देश में 168364 एससी कार्यशील हैं।**
- उत्तर प्रदेश में सबसे अधिक (25751) हैं, इसके बाद राजस्थान (15118), पश्चिम बंगाल (12901), आंध्र प्रदेश (11068), बिहार (10854), महाराष्ट्र (10752) और मध्य प्रदेश (10150) का स्थान है।

प्राथमिक स्वास्थ्य केंद्र (पीएचसी)

2.4 पीएचसी गाँव की समुदाय और चिकित्सा अधिकारी के बीच पहला संपर्क बिंदु है। पीएचसी का उद्देश्य ग्रामीण आबादी को एकीकृत उपचारात्मक और निवारक स्वास्थ्य देखभाल प्रदान करना है, जिसमें स्वास्थ्य देखभाल के निवारक और प्रोत्साहक पहलुओं पर विशेष जोर दिया गया है। न्यूनतम आवश्यकता कार्यक्रम (एमएनपी)

खंड III, तालिका 1

- **31 मार्च, 2025 तक की स्थिति के अनुसार, देश में 25886 पीएचसी कार्यशील हैं।**
- उत्तर प्रदेश में सबसे अधिक (3030) हैं, उसके बाद राजस्थान (2474), कर्नाटक (2131), महाराष्ट्र (1936), बिहार (1708), गुजरात (1492), मध्य प्रदेश (1442) और तमिलनाडु (1415) का स्थान है।

/ बुनियादी न्यूनतम सेवाएँ (बीएमएस) कार्यक्रम के तहत पीएचसी की स्थापना और रखरखाव के लिए राज्य सरकारें नोडल एजेंसी हैं। प्रत्येक पीएचसी का प्रबंधन एक चिकित्सा अधिकारी द्वारा किया जाएगा, जिन्हें पैरामेडिकल और अन्य कर्मचारियों का सहयोग प्राप्त होता है। राष्ट्रीय स्वास्थ्य मिशन (एनएचएम) के तहत, पीएचसी पर अनुबंध के आधार पर दो अतिरिक्त स्टाफ नर्सों का प्रावधान है। यह छह उप केंद्रों के लिए एक रेफरल इकाई के रूप में कार्य करता है और इसमें रोगियों के लिए 4-6 बिस्तर होते हैं। पीएचसी की गतिविधियों में उपचारात्मक, निवारक, संवर्धनात्मक और पारिवारिक कल्याण सेवाएं शामिल हैं। राष्ट्रीय स्तर पर, वर्ष 2024 से ग्रामीण क्षेत्रों में पीएचसी की संख्या में मामूली वृद्धि हुई है। पीएचसी की संख्या में सबसे अधिक वृद्धि बिहार में देखी गई, इसके बाद महाराष्ट्र, राजस्थान, उत्तर प्रदेश, तेलंगाना और झारखंड का स्थान है। **(खंड I, तुलनात्मक विवरण** 11)

सामुदायिक स्वास्थ्य केंद्र (सीएचसी)

2.5 सीएचसी राज्य सरकार द्वारा एमएनपी/बीएमएस कार्यक्रम के तहत स्थापित और बनाए गए हैं। इन्हें चार चिकित्सा विशेषज्ञों अर्थात् सर्जन, चिकित्सक, प्रसूति/स्त्री रोग विशेषज्ञ और बाल रोग विशेषज्ञ द्वारा प्रबंधित किया जाता है, जिन्हें पैरामेडिकल और अन्य कर्मचारी सहयोग प्रदान करते हैं। इसमें 30 इनडोर बेड के साथ, एक ओटी, एक्स-रे, प्रसव कक्ष और प्रयोगशाला की सुविधाएँ हैं। यह 4 पीएचसी के लिए रेफरल केंद्र के रूप में कार्य करता है और प्रसूति देखभाल तथा विशेषज्ञ परामर्श की सुविधाएँ प्रदान करता है। राष्ट्रीय स्तर पर, यह देखा गया है कि ग्रामीण क्षेत्रों में 2024 से 2025 तक सीएचसी की संख्या में 24 की वृद्धि हुई है। सीएचसी की संख्या में सबसे अधिक वृद्धि उत्तर प्रदेश में देखी गई, इसके बाद छत्तीसगढ़, राजस्थान, असम और तेलंगाना में। **(खंड I, तुलनात्मक विवरण 11)**

खंड III, तालिका 1

- **31 मार्च, 2025 तक की स्थिति के अनुसार, देश में 5663 सीएचसी क्रियाशील हैं।**
- उत्तर प्रदेश में सबसे अधिक (945) हैं, उसके बाद राजस्थान (744), तमिलनाडु (388), गुजरात (353), पश्चिम बंगाल (348), ओडिशा (331) और मध्य प्रदेश (327) का स्थान है।

2.6 ग्रामीण और जनजातीय स्वास्थ्य अवसंरचना के प्रत्येक स्तर के लिए जनसंख्या मानदंडों का विवरण और जनसंख्या कवरेज और क्षेत्र कवरेज के संबंध में राष्ट्रीय स्तर के कुछ मानकों के साथ इन मानदंडों की तुलना में वर्तमान स्थिति बॉक्स 1 में दी गई है।

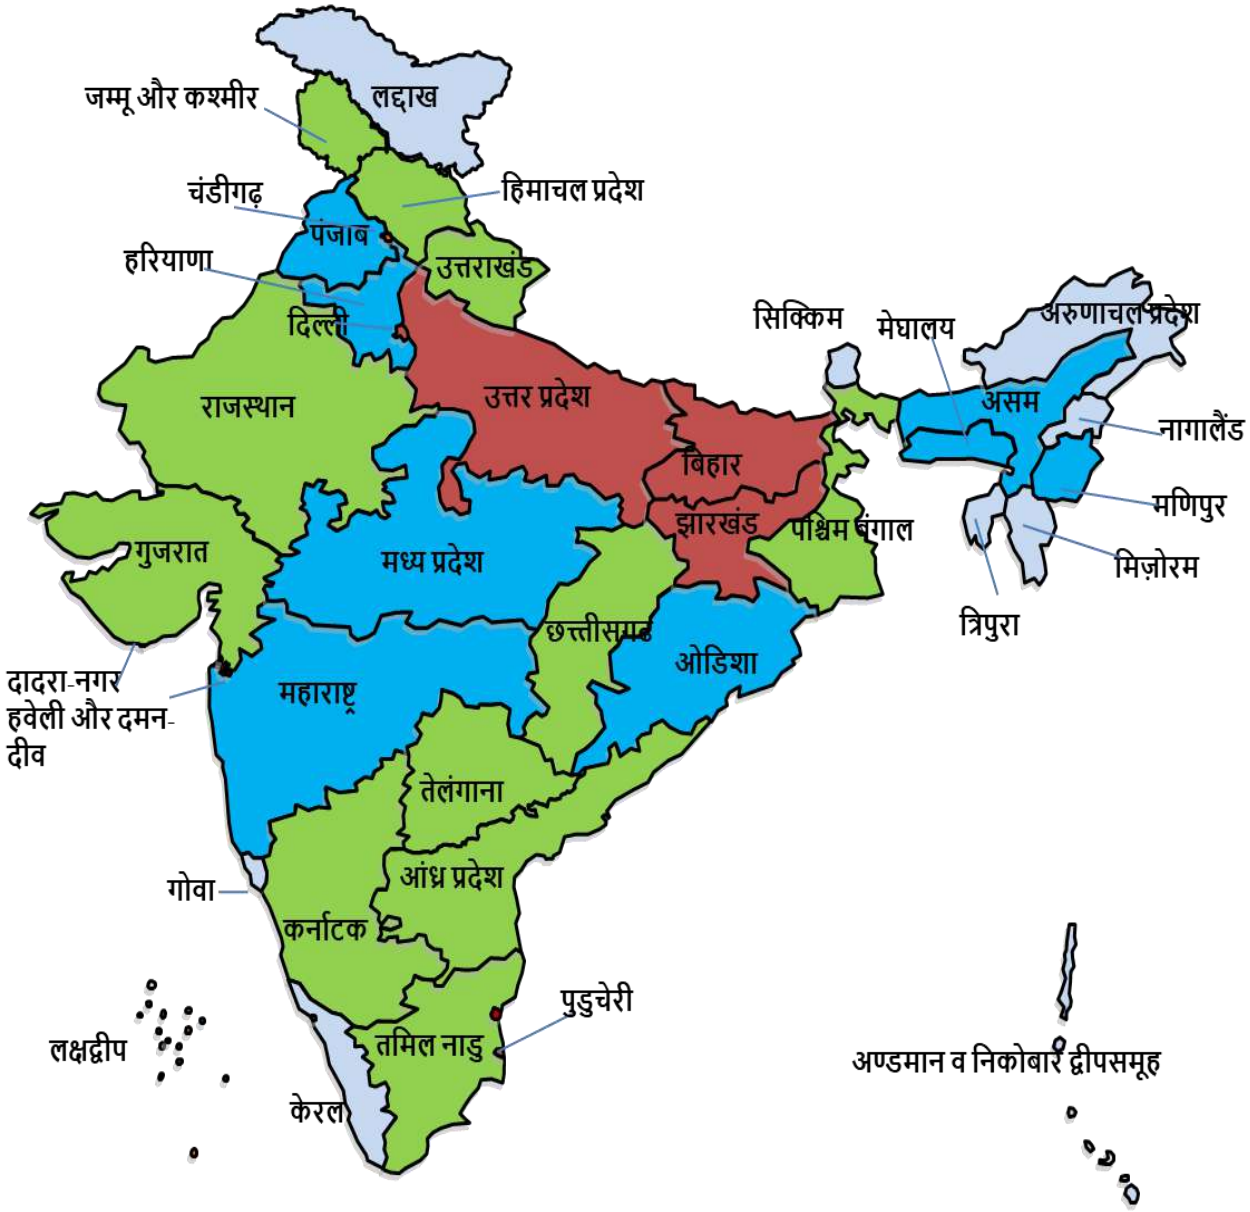

बॉक्स 1: ग्रामीण स्वास्थ्य अवसंरचना – मानदंड* और उपलब्धियों का स्तर (अखिल भारत)

क्र. सं.	सूचक	राष्ट्रीय मानदंड		स्थिति (2025)
1	**ग्रामीण जनसंख्या (1 मार्च 2024 तक) द्वारा कवर की गई:**	**सामान्य**	**जनजातीय क्षेत्र**	**ग्रामीण क्षेत्र**
	उप-केंद्र (एससी)	5000	3000	5398
	प्राथमिक स्वास्थ्य केंद्र (पीएचसी)	30000	20000	35107
	सामुदायिक स्वास्थ्य केंद्र (सीएचसी)	120000	80000	160476
2	प्रति पीएचसी उप-केंद्रों की संख्या	6		7
3	प्रति सीएचसी पीएचसी की संख्या	4		5
4	**कवर किया गया औसत क्षेत्र (वर्ग किमी):**			
	उप-केन्द्र	18.60		
	पीएचसी	101.02		
	सीएचसी	504.33		
5	**कवर किया गया औसत त्रिज्यात्मक दूरी (किमी):**			
	उप-केन्द्र	2.43		
	पीएचसी	5.67		
	सीएचसी	12.67		
6	**कवर किए गए गांवों की औसत संख्या:**			
	उप-केन्द्र	4		
	पीएचसी	26		
	सीएचसी	118		

* किसी विशेष सुविधा (एससी, पीएचसी और सीएचसी) की सेवाओं के अंतर्गत कवर किए गए व्यक्तियों की संख्या

2.7 ग्रामीण क्षेत्रों में 31 मार्च, 2025 तक उप-केंद्र, पीएचसी और सीएचसी द्वारा कवर की जाने वाली औसत जनसंख्या क्रमशः 5398, 35107 और 160476 है **(खंड VIII, तालिका 117)**। राज्य-वार उप-केंद्र, पीएचसी और सीएचसी द्वारा कवर की जाने वाली औसत जनसंख्या क्रमशः **मानचित्र 1, 2 और 3** में दर्शाई गई है।

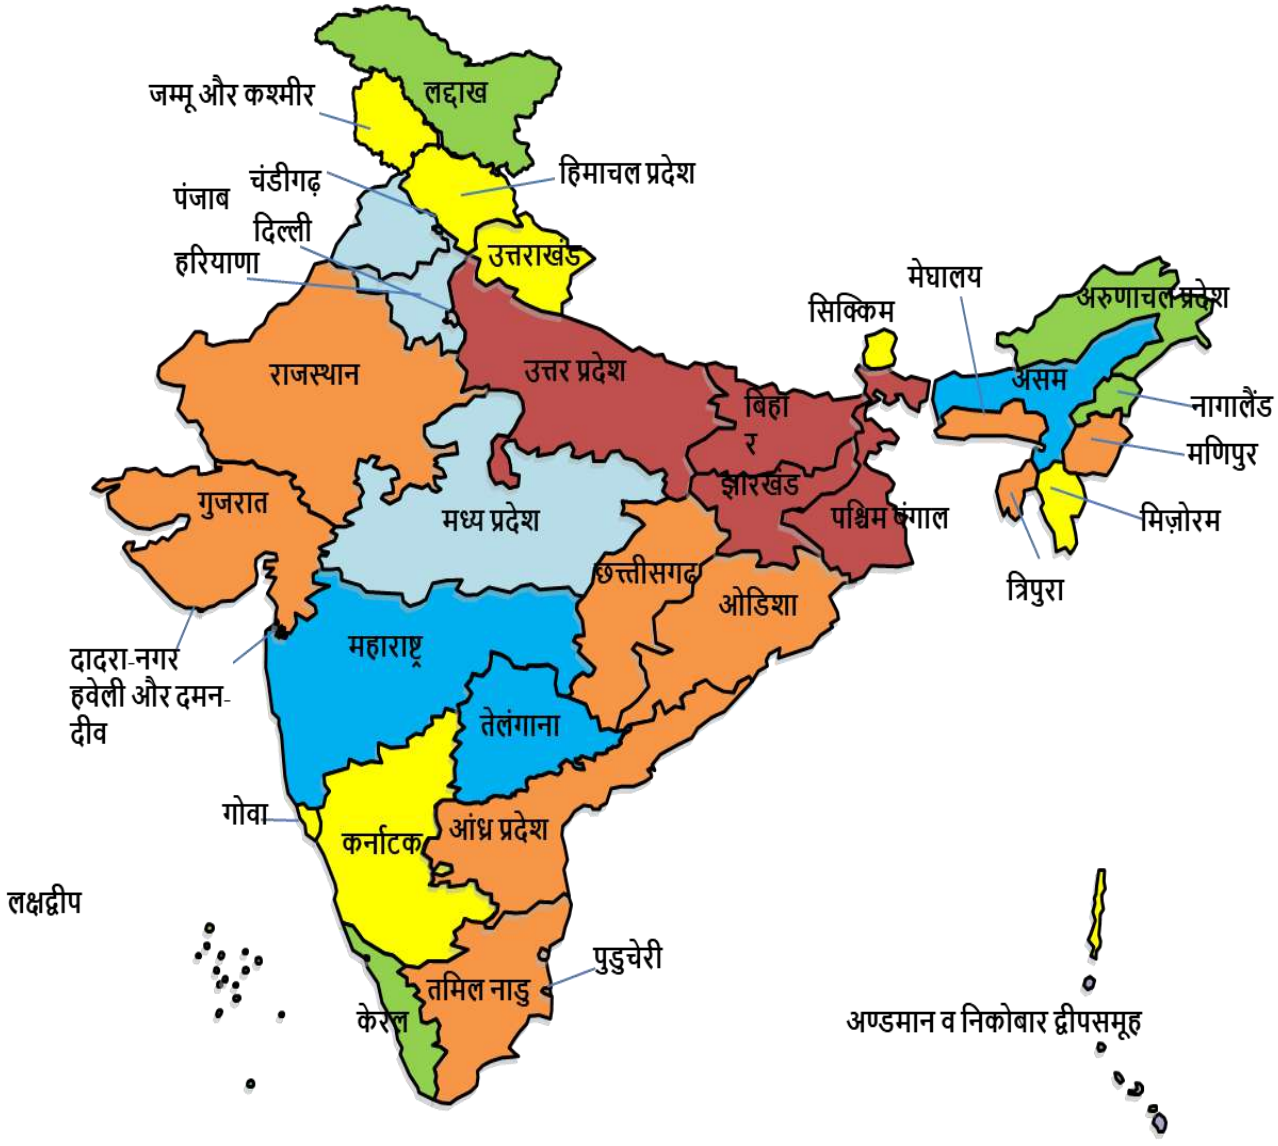

मानचित्र 1. 31st मार्च, 2025 तक उप केन्द्र के अन्तर्गत औसत ग्रामीण जनसंख्या (1 मार्च 2025 को मध्य-वर्ष की जनसंख्या)

उप केन्द्र के अन्तर्गत औसत ग्रामीण जनसंख्या

- 7000 और अधिक
- 5000 - 7000
- 3000 - 5000
- 0 - 3000

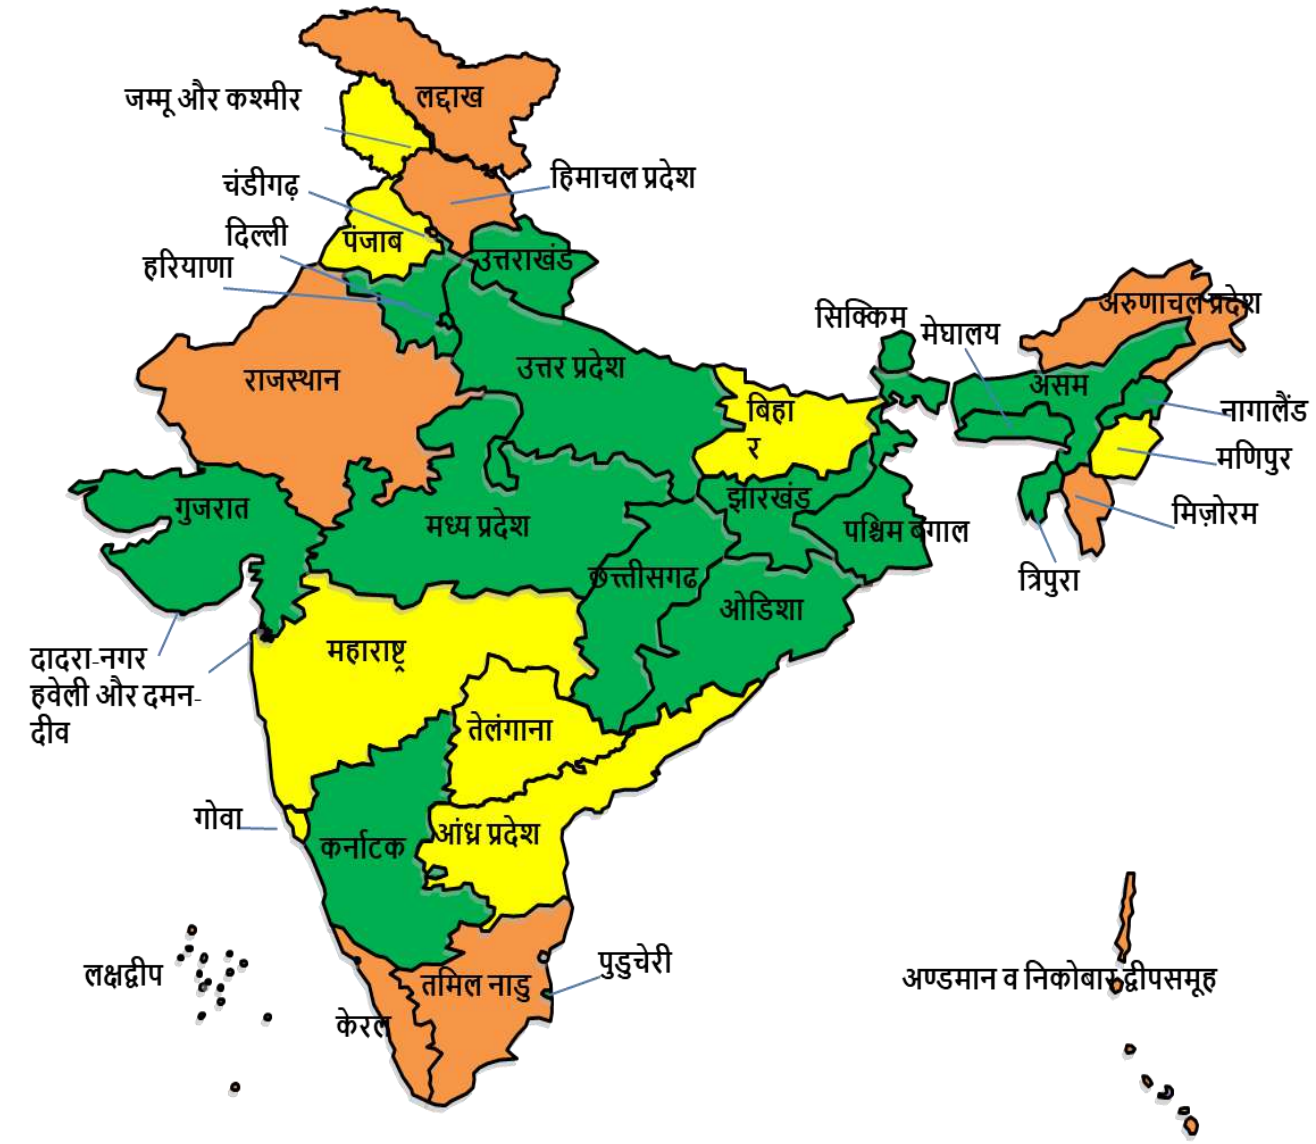

मानचित्र 2. 31st मार्च, 2025 तक पीएचसी के अन्तर्गत ग्रामीण जनसंख्या (1 मार्च 2025 को मध्य-वर्ष की जनसंख्या)

पीएचसी के अन्तर्गत औसत ग्रामीण जनसंख्या

	50000 और अधिक
	40000 - 50000
	30000 - 40000
	20000 - 30000
	10000 - 20000
	0 - 10000

मानचित्र 3. 31st मार्च, 2025 तक सीएचसी के अन्तर्गत ग्रामीण जनसंख्या (1 मार्च 2025 को मध्य-वर्ष की जनसंख्या)

सीएचसी के अन्तर्गत औसत ग्रामीण जनसंख्या

	200000 - 800000
	100000 - 200000
	0 - 100000

2.8 ग्रामीण क्षेत्रों में, अधिकांश उप केंद्र निकाय सरकारी भवनों में कार्यशील हैं। इसके बावजूद, बड़ी संख्या में उप केंद्र निकाय (47202) किराये के भवनों और किराया-मुक्त पंचायत/स्वयंसेवी सोसायटी भवन में चल रहे हैं। किराये के भवनों और किराया-मुक्त पंचायत/ स्वयंसेवी सोसायटी भवनों में चल रहे 47202 उप केंद्रों में से आंध्र प्रदेश, बिहार, उत्तर प्रदेश, कर्नाटक, राजस्थान, पश्चिम बंगाल और गुजरात का हिस्सा लगभग 60% है। इसी प्रकार, 1717 प्राथमिक स्वास्थ्य केंद्र (पीएचसी) और 91 सामुदायिक स्वास्थ्य केंद्र (सीएचसी) किराये के भवनों और किराया-मुक्त पंचायत/ स्वयंसेवी सोसायटी भवन में कार्यशील हैं। **(खंड IV, तालिका 8, खंड V, तालिका 22, खंड VI, तालिका 50)**।

भारत में शहरी स्वास्थ्य देखभाल प्रणाली

3.1 राष्ट्रीय शहरी स्वास्थ्य मिशन (एनयूएचएम) को केंद्रीय मंत्रिमंडल द्वारा दिनांक 1 मई, 2013 को एक व्यापक राष्ट्रीय स्वास्थ्य मिशन (एनएचएम) के अंतर्गत एक उप-मिशन के रूप में अनुमोदित किया गया था। एनयूएचएम फ्रेमवर्क1 का उद्देश्य शहरी आबादी के सभी वर्गों को किफायती, समतामूलक और गुणवत्तापूर्ण व्यापक प्राथमिक और माध्यमिक स्वास्थ्य परिचर्या प्रदान करना है। इसके लिए अंतर-क्षेत्रीय समन्वय के माध्यम से स्वास्थ्य के व्यापक सामाजिक निर्धारकों का समाधान करते हुए शहरी आबादी को समतामूलक और गुणवत्तापूर्ण प्राथमिक स्वास्थ्य परिचर्या प्रदान करने हेतु प्रभावी समन्वय स्थापित किया जाएगा, जिसमें झुग्गी-झोपड़ी में रहने वाले और समाज के कमजोर वर्गों पर विशेष ध्यान दिया जाएगा। एनयूएचएम गुणवत्तापूर्ण प्राथमिक स्वास्थ्य परिचर्या तक उनकी पहुँच को सुगम बनाकर उनके स्वास्थ्य स्तर में सुधार लाने का प्रयास करता है।

3.2 वर्ष 2013 के एनयूएचएम फ्रेमवर्क में शहरी क्षेत्रों में दो प्रकार के स्थायी स्वास्थ्य सुविधा केंद्रों के माध्यम से सेवा वितरण का वर्णन किया गया है, जैसे कि यूपीएचसी जिसकी आबादी 50,000 है (अधिमानतः झुग्गी-झोपड़ियों के भीतर या आसपास स्थित), और यूसीएचसी जिसकी आबादी 2.5 लाख है (महानगरों में 5 लाख)। यूपीएचसी के कार्यक्षेत्र में आउटरीच कार्य एएनएम और आशा कार्यकर्ताओं द्वारा किया जाता है, जिसमें एक एएनएम द्वारा 10,000 की आबादी और एक आशा कार्यकर्ता द्वारा 1000-2500 की आबादी को कवर करने का मानक कवरेज होता है। महिला आरोग्य समिति (एमएएस) शहरी क्षेत्रों में 50-100 परिवारों (250-500 आबादी) को कवर करते हुए कार्यशील है। आईपीएचएस 2022 में सेवा वितरण के प्लेटफार्मों को सेवा वितरण के विवरण के साथ बढ़ाया गया है। शहरी स्वास्थ्य कार्यक्रम सात महानगरों, जैसे मुंबई, नई दिल्ली, चेन्नई, कोलकाता, हैदराबाद, बेंगलुरु और अहमदाबाद में शहरी स्थानीय निकायों (यूएलबी) के माध्यम से कार्यान्वित किया जा रहा है। शेष शहरों के लिए, राज्य स्वास्थ्य विभाग यह तय करता है कि शहरी स्वास्थ्य कार्यक्रम को स्वास्थ्य विभाग के माध्यम से या किसी अन्य शहरी स्थानीय निकाय के माध्यम से लागू किया जाना है।

शहरी स्वास्थ्य सुविधा केंद्रो के विभिन्न स्तर

3.3 एनयूएचएम फ्रेमवर्क 2023 में संपूर्ण शहरी आबादी को व्यापक प्राथमिक और माध्यमिक परिचर्या सेवाएं प्रदान करने के लिए शहरी स्वास्थ्य सुविधा केंद्रो के निम्नलिखित चार स्तरों की परिकल्पना की गई है।

1स्त्रोत: राष्ट्रीय शहरी स्वास्थ्य मिशन- फ्रेमवर्क 2023

- 15,000-20,000 की शहरी आबादी के लिए **शहरी स्वास्थ्य एवं आरोग्य केंद्र (यूएचडब्ल्यूसी)** स्थापित किए जाएंगे। यह सुझाव दिया जाता है कि यूएचडब्ल्यूसी का निर्माण झुग्गी-झोपड़ी/झुग्गी-जैसी आबादी के 2-3 किलोमीटर के दायरे में जहां भी उपयुक्त भूमि उपलब्ध हो, वहां किया जाए। शहरी एचडब्ल्यूसी का स्थान और जनसंख्या कवरेज जनसंख्या घनत्व और कमजोर एवं हाशिए पर रहने वाले जनसंख्या उपसमूहों की मौजूदगी के आधार पर लचीला हो सकता है। शहरी एचडब्ल्यूसी से शहरी क्षेत्रों में अपनी पहुंच बढ़ाने और यूपीएचसी के अंतर्गत स्थापित उप केंद्रों के रूप में कार्य करके कमजोर एवं हाशिए पर रहने वाले लोगों को कवर करने की उम्मीद है। प्रत्येक यूपीएचसी जो लगभग 50,000 की आबादी को सेवाएं प्रदान करता है, उसके अंतर्गत 2-3 यूएचडब्ल्यूसी होने की अपेक्षा है, जो शहरी स्थानीय निकाय की कमजोर आबादी पर निर्भर करेगा।
- 30,000-50,000 शहरी आबादी वाले क्षेत्रों में **शहरी प्राथमिक स्वास्थ्य केंद्र (यूपीएचसी)** (सभी शहरी क्षेत्रों को कवर करने के लिए)
- मौजूदा 5-6 यूपीएचसी में से एक को सुदृढ़ करके 2.5-3 लाख आबादी वाले क्षेत्रों में **विशेषज्ञ यूपीएचसी/पॉलीक्लिनिक**।
- **शहरी सामुदायिक स्वास्थ्य केंद्र (यूसीएचसी):** 2013 के फ्रेमवर्क के अंतर्गत परिकल्पित यूसीएचसी (30-50 बिस्तरों वाली इन-पेशेंट सुविधाएं) अधिकांश राज्यों/संघ राज्य क्षेत्रों में न्यूनतम रूप से कार्यशील या पूरी तरह से कार्यशील नहीं हैं। शहरी क्षेत्रों में विशिष्ट परिचर्या प्रदान करने वाले मेडिकल कॉलेज अभी भी माध्यमिक और विशिष्ट परिचर्या चाहने वाले रोगियों से भरे हुए हैं। इसलिए, एक सुदृढ़ रेफरल नेटवर्क को परिभाषित और कार्यान्वित करके शहरी क्षेत्रों में सुनिश्चित माध्यमिक परिचर्या सुविधा केंद्र की आवश्यकता है। आईपीएचएस 2022 के अंतर्गत परिभाषित यूसीएचसी को गैर-महानगरों में 2.5 लाख और महानगरों में 5 लाख आबादी को सुनिश्चित माध्यमिक परिचर्या सेवाएं प्रदान करनी चाहिए। *(यदि एसडीएच/डीएच के माध्यम से सुनिश्चित माध्यमिक परिचर्या उपलब्ध हो तो यह वैकल्पिक हो सकता है)।*

जहां मौजूदा शहरी स्वास्थ्य केंद्र (यूसीएचसी) उपलब्ध हैं, उन्हें या तो एसडीएच (महानगरों में 100 बिस्तरों वाला और गैर-महानगरों में 50 बिस्तरों वाला) की तरह पूर्ण विकसित 50 बिस्तरों वाली माध्यमिक परिचर्या सुविधा केंद्र के रूप में उन्नत किया जा सकता है, जिसमें माध्यमिक परिचर्या सेवाओं की पूरी श्रृंखला (आईपीएचएस 2022 के तहत परिभाषित) उपलब्ध हो, या उन्हें सभी सुनिश्चित सेवाओं के साथ पॉलीक्लिनिक में परिवर्तित किया जा सकता है। एनयूएचएम को सुविधा और सामुदायिक स्तर पर स्वास्थ्य सेवाएं प्रदान करने के लिए डिज़ाइन किया गया है। शहरी स्वास्थ्य परिचर्या वितरण मॉडल में निम्नलिखित घटक शामिल हैं:

शहरी स्वास्थ्य सेवाएं

3.4 राज्यों और संघ राज्य क्षेत्रों को किसी भी शहर/जिले में विभिन्न स्तरों की स्वास्थ्य सुविधा केंद्रो की योजना बनाने की छूट है। यह योजना कुल शहरी आबादी, मौजूदा स्वास्थ्य सुविधा केंद्रो (यूपीएचसी, यूएचसी, एसडीएच या डीएच या कोई भी राज्य स्तरीय औषधालयों/जन स्वास्थ्य सुविधा केंद्रों) और स्थानीय परिस्थितियों और आवश्यकताओं के अनुसार आवश्यक शहरी स्वास्थ्य सुविधा केंद्रो की संख्या के महत्वपूर्ण अंतर विश्लेषण पर आधारित होगी। शहरी स्वास्थ्य सुविधा केंद्रो की संख्या शहर/जिले की संपूर्ण शहरी आबादी को कवर करने के लिए निर्धारित की जा सकती है। 15,000-20,000 की आबादी को कवर करने वाले शहरी स्वास्थ्य केंद्रों (यूएचडब्ल्यूसी) को अर्ध-शहरी/विकासशील क्षेत्रों में स्थापित किया जा सकता है, यदि वहाँ पहले से कोई स्वास्थ्य सुविधा केंद्र मौजूद नहीं हैं। कुछ राज्यों में, पहले से मौजूद यूपीएचसी 24x7 यूपीएचसी-एचडब्ल्यूसी के रूप में इनडोर बेड के साथ काम कर रहे हैं और प्रसव सेवाएँ प्रदान कर रहे हैं। ऐसी सुविधाएँ 24x7 सुविधा केंद्रो के रूप में कार्य करती रहेंगी। राज्यों को स्थानीय परिस्थितियों के अनुसार 30,000-50,000 शहरी आबादी वाले क्षेत्रों में यूपीएचसी-एचडब्ल्यूसी (स्वास्थ्य और स्वास्थ्य परिचर्या केंद्र) और 15,000-20,000 आबादी वाले क्षेत्रों में यूवीएचसी-एचडब्ल्यूसी स्थापित करने की छूट होगी।

शहरी जन स्वास्थ्य सुविधा केंद्रो के अंतर्गत सेवा संबंधी प्रावधान

3.5 आईपीएचएस 2022 ने शहरी सामुदायिक स्वास्थ्य केंद्रों (यूसीएचसी), शहरी प्राथमिक स्वास्थ्य केंद्र (यूपीएचसी), 24x7 यूपीएचसी, पॉलीक्लिनिक और शहरी स्वास्थ्य आरोग्य केंद्रों (यूएचडब्ल्यूसी) में जनसंख्या मानदंडों के साथ-साथ अवसंरचना, मानव संसाधन, बिस्तरों, सेवाओं, दवाओं और निदान के लिए मानदंड परिभाषित किए हैं। सभी शहरी स्वास्थ्य सुविधा केंद्रो को आईपीएचएस 2022 मानदंडों का

अनुपालन करना होगा और भविष्य में किसी भी महामारी या आपदा के लिए सक्षम जन स्वास्थ्य सुविधा केंद्र बनाने होंगे। राज्यों और संघ राज्य क्षेत्रो के अनुमत संसाधन सीमाओं के भीतर राष्ट्रीय स्वास्थ्य प्रबंधन (एनएचएम) के अंतर्गत इसे निरंतर सहयोग दिया जाएगा।

सेवा संबंधी प्रावधान

Urban Health and Wellness Centres	• To provide all 12 packages of services envisaged under Ayushman Bharat-Comprehensive Primary Healthcare. • To provide routine OPD care including preventive, promotive, rehabilitative, and palliative care along with other public health interventions. • National health programmes with a focus on preventive/promotive activities, population-based screening, assured medicines, diagnostics, teleconsultation, need-based outreach activities and public health actions. • Enable strengthening the continuum of care through providing access to high-quality care closer to the urban community, ensuring upward and downward linkages, minimizing out-of-pocket expenditure, and acting as gatekeepers to decongest secondary and tertiary health care facilities. • Enable improved disease surveillance and reporting for epidemics/ outbreaks and risk factor mitigation through health promotion and wellness activities.
Urban Primary Health Centre	• To provide all 12 packages of services envisaged under Ayushman Bharat-Comprehensive Primary Healthcare. • To provide routine OPD care including preventive, promotive, rehabilitative, and palliative care along with other public health interventions.
Polyclinics	• In urban areas, currently, 5-6 UPHCs are catering to a population of 2.5-3 lakhs; one of the UPHCs, among these 5-6 UPHCs, would be identified to be upgraded as a Polyclinic (depicted in image below). • Ensure a continuum of care by providing specialty services (medicine, obstetrics and gynecology, paediatrics, ophthalmology, dermatology and psychiatry) closer to the community. • Polyclinic should plan and provide oral, physiotherapy and/or optometrist services also, as per local requirements. • Diagnostic services for all the specialties concerned along with point-of-care testing should be made available at polyclinics. • Some of the specialized services such as X-ray, USG, CT scan, etc. are not essentially needed to be there but if required can be linked with the facility available nearby like FRU CHC, SDH or DH. • For areas with functional Urban CHCs (UCHCs) providing specialist services, separate polyclinics may not be required.
Urban Community Health Centres	• If UCHCs are non-functional and a functional SDH exists, the States can strengthen SDH to provide secondary care services instead of creating a new UCHC. The District Hospital would be the apex referral centre for every district/city for the urban population. • The services at UCHC will include emergency services, OPD services, integrated counselling services, IPD services, diagnostics and referral services. • NHPs should be delivered through the UCHCs with Integration with other existing programmes to provide comprehensive services.

पॉलीक्लिनिक और यूपीएचसी के साथ इसके लिंकेज

3.6 शहरी स्वास्थ्य और आरोग्य केंद्र (यूएचडब्ल्यूसी) और यूपीएचसी, एबी एचडब्ल्यूसी के रूप में कार्य करेंगे और विस्तारित सेवाओं के माध्यम से व्यापक प्राथमिक परिचर्या प्रदान करेंगे, जिनमें शामिल हैं:

i. गर्भावस्था और प्रसव संबंधी परिचर्या

ii. नवजात और शिशु स्वास्थ्य परिचर्या सेवाएं

iii. बाल्यावस्था और किशोरावस्था स्वास्थ्य परिचर्या सेवाएं

iv. परिवार नियोजन, गर्भनिरोधक सेवाएं और अन्य प्रजनन स्वास्थ्य परिचर्या सेवाएं

v. संचारी रोगों का प्रबंधन, जिसमें राष्ट्रीय स्वास्थ्य कार्यक्रम शामिल हैं

vi. सामान्य संचारी रोगों का प्रबंधन और तीव्र साधारण बीमारियों और मामूली बीमारियों के लिए बहिरंग रोगी परिचर्या

vii. गैर-संचारी रोगों की जांच, रोकथाम, नियंत्रण और प्रबंधन

viii. सामान्य नेत्र और ईएनटी समस्याओं की परिचर्या

ix. बुनियादी मुख स्वास्थ्य परिचर्या

x. बुजुर्गों और उपशामक स्वास्थ्य परिचर्या सेवाएं

xi. आपातकालीन चिकित्सा सेवाएं

xii. मानसिक स्वास्थ्य संबंधी बीमारियों की जांच और बुनियादी प्रबंधन

संरचना और वर्तमान परिदृश्य

3.7 31 मार्च 2025 तक, देश के शहरी क्षेत्रों में 7657 उप केंद्रों, 6525 प्राथमिक स्वास्थ्य केंद्र और 829 सामुदायिक स्वास्थ्य केंद्र (सीएचसी) कार्यशील हैं (खंड III, तालिका 1)।

3.8 कार्यशील शहरी प्राथमिक स्वास्थ्य केंद्रों की तुलना में, शहरी जनसंख्या मानदंडों के अनुसार 37.1% की कमी है। तथापि, आंध्र प्रदेश, हिमाचल प्रदेश, मेघालय, अंडमान और निकोबार द्वीप समूह, चंडीगढ़ और जम्मू और कश्मीर राज्यों/संघ राज्य क्षेत्रों में जहा आवश्यकता से अधिक शहरी प्राथमिक स्वास्थ्य केंद्र मौजूद हैं (खंड **III**, तालिका **5)**।

3.9 अधिकांश शहरी प्राथमिक स्वास्थ्य केंद्र सरकारी भवनों में कार्यशील हैं। तथापि, अभी भी बड़ी संख्या में शहरी प्राथमिक स्वास्थ्य केंद्र किराए के भवनों और किराया-मुक्त पंचायत/स्वयंसेवी सोसायटी भवनों में चल रहे हैं, जिनका निर्माण प्राथमिकता के आधार पर किया जाना आवश्यक है। किराए के भवनों और किराया-मुक्त पंचायत/ स्वयंसेवी सोसायटी भवनों में चल रहे 1918 शहरी प्राथमिक स्वास्थ्य केंद्रों में से आंध्र प्रदेश, बिहार, कर्नाटक, उत्तर प्रदेश, दिल्ली, मध्य प्रदेश, गुजरात, तेलंगाना और हरियाणा का हिस्सा लगभग 77% है। इसी प्रकार, 829 शहरी सामुदायिक स्वास्थ्य केंद्रों (यू-सीएचसी) में से 813 यू-सीएचसी सरकारी भवन में कार्य चल रहे हैं **(खंड V, तालिका 23 और खंड VI, तालिका 51)**।

अन्य जन स्वास्थ्य सुविधा केंद्र

4.1 राज्य सरकारों और संघ राज्य क्षेत्रों द्वारा प्रबंधित जन स्वास्थ्य अवसंरचना के अतिरिक्त, केंद्र सरकार और अन्य सार्वजनिक क्षेत्र के संगठनों के अधीन विभिन्न अन्य जन स्वास्थ्य प्रणालियों के माध्यम से भी स्वास्थ्य परिचर्या सेवाएं प्रदान की जाती हैं। इनमें गृह मंत्रालय के अधीन केंद्रीय सशस्त्र पुलिस बल (सीएपीएफ), रेल मंत्रालय, श्रम और रोजगार मंत्रालय के अधीन कर्मचारी राज्य बीमा निगम (ईएसआईसी), कर्मचारी राज्य बीमा योजना (ईएसआईएस), केंद्रीय सरकार स्वास्थ्य योजना (सीजीएचएस) तथा अन्य केंद्रीय सरकारी जन स्वास्थ्य संस्थान जैसे अखिल भारतीय आयुर्विज्ञान संस्थान (एम्स), स्नातकोत्तर आयुर्विज्ञान शिक्षा एवं अनुसंधान संस्थान (पीजीआई), जवाहरलाल स्नातकोत्तर आयुर्विज्ञान शिक्षा एवं अनुसंधान संस्थान (जिपमेर) आदि शामिल हैं।

4.2 देश में जन स्वास्थ्य सुविधा केंद्रों की समग्र स्थिति प्रस्तुत करने के लिए, अन्य जन स्वास्थ्य सुविधा केंद्रों से संबंधित अपेक्षित आंकड़े संकलित किए गए हैं। इन स्वास्थ्य सुविधा केंद्रों का विवरण नीचे दिया गया है।

केंद्रीय सशस्त्र पुलिस बल (सीएपीएफ)

4.3 केंद्रीय सशस्त्र पुलिस बल (सीएपीएफ) आंतरिक सुरक्षा बनाए रखने, देश की सीमाओं की सुरक्षा करने, महत्वपूर्ण प्रतिष्ठानों की रक्षा करने तथा कठिन, दूरस्थ और प्रतिकूल परिस्थितियों में विभिन्न प्रकार के अभियानों को संचालित करने में महत्वपूर्ण भूमिका निभाते हैं। सीएपीएफ में असम राइफल्स, सीमा सुरक्षा बल (बीएसएफ), केंद्रीय औद्योगिक सुरक्षा बल (सीआईएसएफ), केंद्रीय रिजर्व पुलिस बल (सीआरपीएफ), भारत-तिब्बत सीमा पुलिस (आईटीबीपी), राष्ट्रीय सुरक्षा गार्ड (एनएसजी) और सशस्त्र सीमा बल (एसएसबी) शामिल हैं। इन बलों के कार्मिक विभिन्न भौगोलिक और जलवायु परिस्थितियों में तैनात रहते हैं तथा उन्हें अक्सर चुनौतीपूर्ण परिचालन परिस्थितियों में अपने कर्तव्यों का निर्वहन करना पड़ता है। अतः इन कार्मिकों को समय पर और उपयुक्त स्वास्थ्य परिचर्या सेवाएं सुनिश्चित करना उनके स्वास्थ्य, कल्याण और परिचालन तत्परता को बनाए रखने के लिए आवश्यक है।

4.4 इन स्वास्थ्य परिचर्या आवश्यकताओं को पूरा करने के लिए, सीएपीएफ कार्मिकों और उनके पात्र आश्रितों हेतु चिकित्सा सुविधाओं तथा अस्पतालों का एक व्यापक नेटवर्क स्थापित किया गया है। स्वास्थ्य परिचर्या अवसंरचना में यूनिट अस्पताल, समेकित या संयुक्त अस्पताल तथा उच्च-स्तरीय रेफरल सुविधाएं शामिल हैं, जिन्हें विशेषज्ञ और सहायक सेवाओं का समर्थन प्राप्त है। ये संस्थान कार्मिकों को उनके संबंधित बल से संबद्धता पर ध्यान दिए बिना चिकित्सा परिचर्या प्रदान करते हैं, विशेष रूप से उन परिस्थितियों में

जब विशेषज्ञ उपचार या रेफरल सेवाओं की आवश्यकता होती है। यह नेटवर्क विभिन्न स्तरों पर स्वास्थ्य परिचर्या सेवाओं की उपलब्धता सुनिश्चित करने के लिए तैयार किया गया है, जिसमें नियमित प्राथमिक और बाह्य रोगी परिचर्या से लेकर विशेषज्ञ तथा विशिष्ट स्तर के उपचार तक की सेवाएं शामिल हैं।

4.5 सीएपीएफ के चिकित्सा संस्थान निवारक, स्वास्थ्य संवर्धक, उपचारात्मक, आपातकालीन और पुनर्वासात्मक स्वास्थ्य परिचर्या सेवाओं की व्यापक श्रृंखला प्रदान करते हैं। इनमें बाह्य रोगी और अंतःरोगी परिचर्या, आपातकालीन चिकित्सा सेवाएं, विशेषज्ञ परामर्श, नैदानिक जांच, शल्य चिकित्सा प्रक्रियाएं और रेफरल सेवाएं शामिल हैं। इन सुविधाओं में चिकित्सकों, चिकित्सा विशेषज्ञों, परिचर्या कार्मिकों, फार्मासिस्टों, प्रयोगशाला तकनीशियनों, फिजियोथेरेपिस्टों तथा अन्य स्वास्थ्य परिचर्या और सहायक कार्मिकों की सेवाएं उपलब्ध हैं। प्रयोगशालाओं, रेडियोलॉजी और फिजियोथेरेपी सहित नैदानिक और सहायक सेवाएं इन संस्थानों की व्यापक चिकित्सा परिचर्या प्रदान करने की क्षमता को और सुदृढ़ करती हैं।

4.6 सीएपीएफ प्रणाली के अंतर्गत संचालित स्वास्थ्य परिचर्या सुविधाओं के अतिरिक्त, आयुष्मान सीएपीएफ पहल ने पैनलबद्ध अस्पतालों के माध्यम से कैशलेस उपचार की सुविधा प्रदान करके चिकित्सा सेवाओं तक पहुंच का और विस्तार किया है। इस व्यवस्था के अंतर्गत पात्र सीएपीएफ कार्मिक और उनके आश्रित व्यापक स्वास्थ्य परिचर्या प्रदाता नेटवर्क से स्वास्थ्य परिचर्या सेवाएं प्राप्त कर सकते हैं, विशेष रूप से उन स्थानों पर जहां संबंधित बल की अपनी चिकित्सा अवसंरचना में उपचार सुविधाएं उपलब्ध नहीं हैं। संस्थागत स्वास्थ्य परिचर्या सुविधाएं और पैनलबद्ध स्वास्थ्य परिचर्या नेटवर्क मिलकर सीएपीएफ कार्मिकों और उनके परिवारों को व्यापक तथा सुलभ स्वास्थ्य परिचर्या सहायता प्रदान करने में योगदान करते हैं।

4.7 **31** मार्च **2025** की स्थिति के अनुसार, देश में कुल **647** स्वास्थ्य सुविधा केन्द्र कार्यरत थे, जिनमें कुल **8,291** बिस्तरों की क्षमता थी। सीएपीएफ स्वास्थ्य सुविधा केंद्रों का विवरण खंड **IX**, तालिका **120** और तालिका **121** में दिया गया है।

रेलवे स्वास्थ्य सुविधाएं

4.8 भारतीय रेल ने रेलवे कर्मचारियों, उनके आश्रित परिवार के सदस्यों और अन्य पात्र लाभार्थियों को चिकित्सा सेवाएं प्रदान करने के लिए एक व्यापक स्वास्थ्य परिचर्या वितरण प्रणाली स्थापित की है। देश के सबसे बड़े सार्वजनिक क्षेत्र के संगठनों में से एक के रूप में, भारतीय रेल में अनेक रेलवे जोनों, मंडलों, उत्पादन इकाइयों और अन्य प्रतिष्ठानों में बड़ी संख्या में कार्मिक कार्यरत हैं। रेलवे परिचालन की भौगोलिक रूप से विस्तृत प्रकृति और अपने कार्मिकों के स्वास्थ्य एवं कार्यक्षमता को बनाए रखने की आवश्यकता के कारण देशभर में स्वास्थ्य परिचर्या सुविधा केंद्रों का एक व्यापक नेटवर्क विकसित हुआ है।

4.9 रेलवे स्वास्थ्य परिचर्या प्रणाली में देश के विभिन्न भागों में स्थित अस्पताल, मंडलीय अस्पताल, उप-मंडलीय अस्पताल, स्वास्थ्य इकाइयां और अन्य चिकित्सा सुविधा केंद्र शामिल हैं। ये सुविधा केंद्र विभिन्न स्तरों पर स्वास्थ्य परिचर्या सेवाएं प्रदान करती हैं तथा रेलवे लाभार्थियों की नियमित, आपातकालीन और विशेषज्ञ स्वास्थ्य परिचर्या आवश्यकताओं को पूरा करने के लिए तैयार की गई हैं। रेलवे अस्पताल और संबद्ध स्वास्थ्य परिचर्या संस्थान कर्मचारियों और उनके परिवारों के लिए संगठनात्मक सहायता प्रणाली का एक महत्वपूर्ण घटक हैं।

4.10 भारतीय रेल के अधीन स्वास्थ्य परिचर्या सुविधाएं निवारक, स्वास्थ्य संवर्धक, उपचारात्मक और आपातकालीन स्वास्थ्य परिचर्या सेवाओं की व्यापक श्रृंखला प्रदान करती हैं। इनमें बाह्य रोगी परामर्श, अंतःरोगी उपचार, विशेषज्ञ सेवाएं, नैदानिक जांच, आपातकालीन परिचर्या, शल्य चिकित्सा प्रक्रियाएं और रेफरल सेवाएं शामिल हैं। इन संस्थानों में चिकित्सकों, चिकित्सा विशेषज्ञों, परिचर्या कार्मिकों, फार्मासिस्टों, प्रयोगशाला तकनीशियनों, रेडियोग्राफरों तथा अन्य पैरामेडिकल और स्वास्थ्य परिचर्या पेशेवरों की सेवाएं उपलब्ध हैं। ऐसे मानव संसाधनों और अवसंरचना की उपलब्धता रेलवे स्वास्थ्य परिचर्या संस्थानों को लाभार्थियों को व्यापक चिकित्सा सेवाएं प्रदान करने में सक्षम बनाती है।

4.11 आपातकालीन चिकित्सा सेवाएं रेलवे स्वास्थ्य परिचर्या प्रणाली का एक अन्य महत्वपूर्ण घटक हैं। व्यापक रेलवे नेटवर्क तथा रेलवे परिचालन से जुड़े बड़ी संख्या में यात्रियों और कर्मचारियों को देखते हुए, अस्पतालों और चिकित्सा सुविधाओं को विभिन्न परिस्थितियों में आपातकालीन चिकित्सा सहायता प्रदान करने की आवश्यकता पड़ सकती है। अतः रेलवे स्वास्थ्य परिचर्या अवसंरचना चिकित्सा आपात स्थितियों तथा स्वास्थ्य संबंधी अन्य आकस्मिक परिस्थितियों से निपटने के लिए भारतीय रेल की समग्र तत्परता में योगदान करती है।

4.12 अस्पतालों, स्वास्थ्य इकाइयों और अन्य चिकित्सा सुविधाओं के अपने नेटवर्क के माध्यम से भारतीय रेल बड़ी संख्या में कर्मचारियों और उनके पात्र परिवार के सदस्यों को सुलभ स्वास्थ्य परिचर्या सेवाएं प्रदान करती है। इस प्रकार, रेलवे स्वास्थ्य परिचर्या प्रणाली सार्वजनिक क्षेत्र के अंतर्गत एक महत्वपूर्ण संस्थागत स्वास्थ्य परिचर्या नेटवर्क का प्रतिनिधित्व करती है, जो देशभर में रेलवे लाभार्थियों के कर्मचारी कल्याण, व्यावसायिक स्वास्थ्य तथा समग्र स्वास्थ्य एवं कल्याण में योगदान करती है।

4.13 **31** मार्च **2025** की स्थिति के अनुसार, देश में कुल **710** स्वास्थ्य इकाइयां और अस्पताल कार्यरत थे, जिनमें कुल **13,759** बिस्तरों की क्षमता थी। रेलवे स्वास्थ्य सुविधाओं का विवरण **खंड X, तालिका 125** में दिया गया है।

ईएसआईसी अस्पताल तथा ईएसआईएस अस्पताल और औषधालय

4.14 कर्मचारी राज्य बीमा निगम (ईएसआईसी) और कर्मचारी राज्य बीमा योजना (ईएसआईएस) संगठित क्षेत्र के कामगारों के लिए सामाजिक सुरक्षा और स्वास्थ्य परिचर्या प्रणाली के महत्वपूर्ण घटक हैं। कर्मचारी राज्य बीमा योजना के अंतर्गत बीमित व्यक्तियों और उनके आश्रित परिवार के सदस्यों को व्यापक चिकित्सा परिचर्या प्रदान करने के लिए स्वास्थ्य परिचर्या प्रणाली विकसित की गई है। अस्पतालों, औषधालयों और अन्य स्वास्थ्य परिचर्या संस्थानों के व्यापक नेटवर्क के माध्यम से ईएसआईसी और ईएसआईएस प्रणाली देश के विभिन्न भागों में पात्र लाभार्थियों को स्वास्थ्य परिचर्या सेवाएं प्रदान करती है।

4.15 स्वास्थ्य परिचर्या वितरण प्रणाली में ईएसआईसी अस्पताल, ईएसआईएस अस्पताल, औषधालय और अन्य स्वास्थ्य परिचर्या सुविधाएं शामिल हैं। जहां ईएसआईसी विभिन्न स्थानों पर स्वास्थ्य परिचर्या संस्थानों का प्रत्यक्ष रूप से प्रबंधन और संचालन करता है, वहीं राज्य सरकारें भी कर्मचारी राज्य बीमा योजना के अंतर्गत ईएसआईएस अस्पतालों और औषधालयों का संचालन करती हैं। यह संयुक्त संस्थागत व्यवस्था योजना को अनेक राज्यों और संघ राज्य क्षेत्रों में विस्तृत नेटवर्क के माध्यम से स्वास्थ्य परिचर्या सेवाएं प्रदान करने में सक्षम बनाती है।

4.16 ईएसआईसी और ईएसआईएस स्वास्थ्य परिचर्या संस्थान निवारक, स्वास्थ्य संवर्धक, उपचारात्मक और पुनर्वासात्मक स्वास्थ्य परिचर्या सेवाओं का व्यापक दायरा प्रदान करते हैं। सेवाओं में बाह्य रोगी परामर्श, अंतःरोगी उपचार, विशेषज्ञ परिचर्या, नैदानिक जांच, आपातकालीन सेवाएं, औषधियां, शल्य चिकित्सा परिचर्या और रेफरल सेवाएं शामिल हैं। औषधालय लाभार्थियों को सुलभ प्राथमिक स्तर की चिकित्सा सेवाएं और नियमित बाह्य रोगी परिचर्या प्रदान करने में महत्वपूर्ण भूमिका निभाते हैं, जबकि अस्पताल अंतःरोगी और विशेषज्ञ सेवाएं प्रदान करते हैं। इन संस्थानों में चिकित्सकों, चिकित्सा विशेषज्ञों, परिचर्या कार्मिकों, फार्मासिस्टों, प्रयोगशाला तकनीशियनों, रेडियोग्राफरों तथा अन्य पैरामेडिकल और स्वास्थ्य परिचर्या पेशेवरों की सेवाएं उपलब्ध हैं। प्रशिक्षित मानव संसाधनों के साथ-साथ नैदानिक, उपचार और रेफरल सुविधाओं की उपलब्धता इन संस्थानों को बीमित व्यक्तियों और उनके परिवारों की स्वास्थ्य परिचर्या संबंधी आवश्यकताओं की व्यापक श्रृंखला को पूरा करने में सक्षम बनाती है।

4.17 ईएसआईसी और ईएसआईएस स्वास्थ्य परिचर्या नेटवर्क लाभार्थियों को निरंतर परिचर्या प्रदान करने में भी महत्वपूर्ण भूमिका निभाता है। जिन रोगियों को विशेषज्ञ या उच्चतर स्तर के उपचार की आवश्यकता होती है, उन्हें संस्थागत नेटवर्क के भीतर उपयुक्त सुविधाओं अथवा अन्य अधिकृत स्वास्थ्य परिचर्या संस्थानों में रेफर किया जा सकता है। औषधालय स्तर, अस्पताल स्तर और रेफरल सेवाओं का एकीकरण यह सुनिश्चित करने में सहायता करता है कि लाभार्थियों को उनकी चिकित्सा आवश्यकताओं के अनुसार स्वास्थ्य परिचर्या सेवाएं प्राप्त हो सकें।

4.18 बीमित कामगारों और उनके परिवारों को व्यापक एवं सुव्यवस्थित स्वास्थ्य परिचर्या सेवाएं प्रदान करके, ईएसआईसी और ईएसआईएस संस्थान कर्मचारी कल्याण और सामाजिक सुरक्षा में महत्वपूर्ण योगदान करते हैं। अस्पतालों और औषधालयों का नेटवर्क पात्र कामगारों के एक बड़े वर्ग को किफायती और गुणवत्तापूर्ण स्वास्थ्य परिचर्या सेवाओं तक पहुंच सुनिश्चित करने में सहायता करता है। ईएसआईसी और ईएसआईएस प्रणाली के अंतर्गत स्वास्थ्य परिचर्या अवसंरचना और मानव संसाधनों को निरंतर सुदृढ़ करना बीमित व्यक्तियों और उनके आश्रितों की बदलती स्वास्थ्य परिचर्या आवश्यकताओं को पूरा करने के लिए महत्वपूर्ण है।

4.19 **31** मार्च **2025** की स्थिति के अनुसार, ईएसआईसी के **59** अस्पताल हैं, जिनमें **15,370** स्वीकृत बिस्तर हैं, जिनमें से **11,313** बिस्तर कमीशन किए जा चुके हैं। ईएसआईएस के **1,709** अस्पताल और औषधालय हैं, जिनमें **42,440** स्वीकृत बिस्तर तथा **30,685** कमीशन किए गए बिस्तर हैं। ईएसआईसी/ईएसआईएस स्वास्थ्य सुविधाओं का विवरण खंड **XI, तालिका 129** और तालिका **131** में दिया गया है।

केंद्रीय सरकार स्वास्थ्य योजना (सीजीएचएस)

4.20 भारत सरकार के स्वास्थ्य और परिवार कल्याण मंत्रालय द्वारा प्रशासित केंद्रीय सरकार स्वास्थ्य योजना **(**सीजीएचएस**)** एक व्यापक स्वास्थ्य परिचर्या योजना है, जिसे पात्र केंद्रीय सरकारी कर्मचारियों, पेंशनभोगियों और लाभार्थियों की अन्य पात्र श्रेणियों को चिकित्सा परिचर्या प्रदान करने के लिए स्थापित किया गया है। यह योजना केंद्रीय सरकार के लाभार्थियों के लिए उपलब्ध स्वास्थ्य परिचर्या और कल्याण व्यवस्था का एक महत्वपूर्ण घटक है तथा अपने स्वास्थ्य परिचर्या सुविधाओं के नेटवर्क और पैनलबद्ध सेवा प्रदाताओं के माध्यम से विभिन्न प्रकार की चिकित्सा सेवाओं तक पहुंच प्रदान करती है।

4.21 सीजीएचएस केंद्रीय सरकार के विभिन्न घटकों से संबद्ध पात्र लाभार्थियों और अन्य पात्र श्रेणियों की स्वास्थ्य परिचर्या आवश्यकताओं को पूरा करता है। यह योजना एक सुव्यवस्थित प्रणाली के माध्यम से लाभार्थियों को स्वास्थ्य परिचर्या सेवाएं प्रदान करती है, जिसमें सीजीएचएस वेलनेस केंद्र और अन्य स्वास्थ्य परिचर्या सुविधाएं शामिल हैं तथा इन्हें पैनलबद्ध अस्पतालों, नैदानिक केंद्रों और प्रयोगशालाओं द्वारा पूरक बनाया जाता है।

4.22 सीजीएचएस वेलनेस केंद्र नियमित चिकित्सा परिचर्या और संबंधित सेवाएं प्राप्त करने वाले लाभार्थियों के लिए एक महत्वपूर्ण पहुंच बिंदु के रूप में कार्य करते हैं। यह योजना निवारक, स्वास्थ्य संवर्धक और उपचारात्मक स्वास्थ्य परिचर्या सेवाओं की एक श्रृंखला प्रदान करती है, जिसमें बाह्य रोगी परामर्श, विशेषज्ञ सेवाएं, औषधियां, नैदानिक जांच, अस्पताल में भर्ती और रेफरल सेवाएं शामिल हैं।

विशेषज्ञ उपचार की आवश्यकता वाले लाभार्थी योजना के प्रावधानों के अनुसार सरकारी अथवा पैनलबद्ध स्वास्थ्य परिचर्या संस्थानों के माध्यम से सेवाएं प्राप्त कर सकते हैं।

4.23 सीजीएचएस की स्वास्थ्य परिचर्या वितरण व्यवस्था अपनी स्वयं के सुविधा केंद्रों के माध्यम से प्रत्यक्ष रूप से सेवाएं प्रदान करने के साथ-साथ पैनलबद्ध अस्पतालों और नैदानिक केंद्रों के माध्यम से प्राप्त सेवाओं को भी सम्मिलित करती है। यह व्यवस्था लाभार्थियों के लिए उपलब्ध स्वास्थ्य परिचर्या सेवाओं की सीमा और भौगोलिक उपलब्धता का विस्तार करती है। यह उन स्थानों पर विशेषज्ञ चिकित्सा उपचार और उन्नत नैदानिक सेवाओं तक पहुंच भी सुगम बनाती है, जहां योजना के प्राथमिक स्तर पर ऐसी सुविधाएं उपलब्ध नहीं हो सकती हैं।

4.24 स्वास्थ्य परिचर्या सेवाओं को चिकित्सकों, विशेषज्ञों, परिचर्या कार्मिकों, फार्मासिस्टों, प्रयोगशाला कार्मिकों तथा अन्य स्वास्थ्य परिचर्या पेशेवरों का समर्थन प्राप्त है। योजना लाभार्थियों को व्यापक स्वास्थ्य परिचर्या सहायता प्रदान करने तथा आवश्यक चिकित्सा परामर्श, औषधियों, जांच और उपचार तक पहुंच सुनिश्चित करने पर बल देती है।

4.25 वेलनेस केंद्रों, स्वास्थ्य परिचर्या सुविधा केंद्रों और पैनलबद्ध संस्थानों के अपने नेटवर्क के माध्यम से, सीजीएचएस पात्र केंद्रीय सरकारी लाभार्थियों और उनके परिवारों के लिए सुलभ, व्यापक और किफायती स्वास्थ्य परिचर्या सेवाएं सुनिश्चित करने में महत्वपूर्ण भूमिका निभाता है। यह योजना सेवारत और सेवानिवृत्त केंद्रीय सरकारी कर्मचारियों की एक बड़ी आबादी के लिए एक प्रमुख संस्थागत स्वास्थ्य परिचर्या तंत्र के रूप में निरंतर सेवाएं प्रदान कर रही है।

4.26 **31** मार्च **2025** की स्थिति के अनुसार, देश में कुल **483** स्वास्थ्य सुविधा केंद्र कार्यरत हैं, जिनमें कुल **65** बिस्तरों की क्षमता थी। सीजीएचएस स्वास्थ्य सुविधा केन्द्रों का विवरण खंड **XII**, तालिका **133** में दिया गया है।

केंद्र सरकार जन स्वास्थ्य सुविधा केंद्र

4.27 केंद्र सरकार जन स्वास्थ्य सुविधाए केंद्र भारत की जन स्वास्थ्य परिचर्या अवसंरचना का एक महत्वपूर्ण घटक हैं और इनमें भारत सरकार द्वारा स्थापित तथा समर्थित अग्रणी चिकित्सा संस्थानों, अस्पतालों और विशिष्ट स्वास्थ्य परिचर्या प्रतिष्ठानों की विस्तृत श्रृंखला शामिल है। इन संस्थानों में अखिल भारतीय आयुर्विज्ञान संस्थान **(**एम्स**)**, स्नातकोत्तर आयुर्विज्ञान शिक्षा एवं अनुसंधान संस्थान **(**पीजीआईएमईआर**)**, जवाहरलाल स्नातकोत्तर आयुर्विज्ञान शिक्षा एवं अनुसंधान संस्थान **(**जिपमेर**)**, राष्ट्रीय

मानसिक स्वास्थ्य एवं तंत्रिका विज्ञान संस्थान (निम्हांस) तथा अन्य विशिष्ट संस्थान और राष्ट्रीय महत्व के संस्थान शामिल हैं।

4.28 इन संस्थानों की स्थापना उन्नत और व्यापक स्वास्थ्य परिचर्या सेवाएं प्रदान करने के साथ-साथ चिकित्सा शिक्षा, प्रशिक्षण, अनुसंधान और विशेषज्ञ स्वास्थ्य परिचर्या प्रदान करने वाले महत्वपूर्ण केंद्रों के रूप में कार्य करने के लिए की गई है। इनमें से अनेक सुविधा केंद्र तृतीयक और चतुर्थक स्तर के रेफरल संस्थानों के रूप में कार्य करती हैं तथा विभिन्न राज्यों और संघ राज्य क्षेत्रों से, विशेष रूप से विशेषज्ञ या उन्नत उपचार की आवश्यकता वाले रोगियों का उपचार करती हैं।

4.29 केंद्रीय सरकारी जन स्वास्थ्य सुविधाएं निवारक, स्वास्थ्य संवर्धक, उपचारात्मक, पुनर्वासात्मक और तृतीयक स्वास्थ्य परिचर्या सेवाओं की व्यापक श्रृंखला प्रदान करती हैं। उनकी सेवा-सूची में बाह्य रोगी और अंतःरोगी परिचर्या, विशिष्ट चिकित्सा एवं शल्य चिकित्सा सेवाएं, आपातकालीन परिचर्या, गहन परिचर्या, उन्नत नैदानिक सुविधाएं और अति-विशिष्ट उपचार शामिल हैं। ये संस्थान जटिल चिकित्सीय स्थितियों के प्रबंधन तथा उन विशिष्ट विषयों में उपचार प्रदान करने के लिए सुसज्जित हैं, जिनमें उन्नत अवसंरचना और उच्च प्रशिक्षित स्वास्थ्य परिचर्या पेशेवरों की आवश्यकता हो सकती है।

4.30 स्वास्थ्य परिचर्या सेवाएं प्रदान करने के अतिरिक्त, ये संस्थान चिकित्सा और स्वास्थ्य विज्ञान शिक्षा में भी महत्वपूर्ण भूमिका निभाते हैं। वे चिकित्सा, परिचर्या तथा अन्य स्वास्थ्य-संबंधी विषयों में स्नातक, स्नातकोत्तर और अति-विशिष्ट शिक्षा एवं प्रशिक्षण प्रदान करते हैं। चिकित्सकों, विशेषज्ञों, परिचर्या कर्मियों, संबद्ध स्वास्थ्य पेशेवरों और शोधकर्ताओं का प्रशिक्षण देश के स्वास्थ्य परिचर्या कार्यबल के विकास में महत्वपूर्ण योगदान देता है।

4.31 अनुसंधान इन अग्रणी संस्थानों का एक अन्य महत्वपूर्ण कार्य है। ये नैदानिक, जैव-चिकित्सीय और जन स्वास्थ्य अनुसंधान करते हैं तथा नए ज्ञान, उपचार प्रोटोकॉल, प्रौद्योगिकियों और स्वास्थ्य परिचर्या पद्धतियों के विकास में योगदान देते हैं। इन संस्थानों द्वारा किया गया अनुसंधान साक्ष्य-आधारित स्वास्थ्य परिचर्या का समर्थन करता है और उभरती तथा जटिल स्वास्थ्य संबंधी चुनौतियों के समाधान में योगदान देता है।

4.32 केंद्र सरकार जन स्वास्थ्य सुविधा के संचालन को चिकित्सकों, विशेषज्ञों, शल्य चिकित्सकों, परिचर्या कार्मिकों, पैरामेडिकल पेशेवरों, प्रयोगशाला कार्मिकों, फार्मासिस्टों, शोधकर्ताओं तथा अन्य तकनीकी और सहायक कार्मिकों सहित स्वास्थ्य परिचर्या पेशेवरों की व्यापक श्रृंखला का समर्थन प्राप्त है।

विशिष्ट मानव संसाधनों, उन्नत चिकित्सा अवसंरचना और अनुसंधान क्षमता की उपलब्धता इन संस्थानों को उत्कृष्टता केंद्रों के रूप में कार्य करने में सक्षम बनाती है।

4.33 अतः केंद्र सरकार जन स्वास्थ्य सुविधा केंद्र भारत की स्वास्थ्य परिचर्या वितरण प्रणाली में महत्वपूर्ण योगदान देते हैं। विशिष्ट और उन्नत चिकित्सा परिचर्या प्रदान करने के अतिरिक्त, ये चिकित्सा शिक्षा, मानव संसाधन विकास, अनुसंधान, नवाचार तथा गुणवत्तापूर्ण स्वास्थ्य परिचर्या के लिए मानकों और प्रोटोकॉल के निर्धारण के माध्यम से स्वास्थ्य प्रणाली को सुदृढ़ करती हैं। प्रमुख रेफरल और उत्कृष्टता केंद्रों के रूप में, ये संस्थान राज्य सरकारों और अन्य जन स्वास्थ्य संस्थानों द्वारा प्रदान की जाने वाली स्वास्थ्य परिचर्या सेवाओं के पूरक हैं तथा देशभर में उन्नत स्वास्थ्य परिचर्या सेवाओं तक पहुंच में महत्वपूर्ण योगदान देते हैं।

4.34 31 मार्च **2025** की स्थिति के अनुसार, इस प्रकाशन में कुल **44** कार्यशील केंद्र सरकार जन स्वास्थ्य सुविधा केंद्रों को शामिल किया गया है, जिनमें कुल **33,570** बिस्तरों की क्षमता है। केंद्र सरकार स्वास्थ्य सुविधा केंद्रों का विवरण खंड **XIII,** तालिका **136** में दिया गया है।

PART 1
HEALTH CARE SYSTEM IN INDIA

Health Care System in India

1.1 A health care system is an organized framework of institutions, resources, and personnel designed to deliver health services to a population. It includes preventive, promotive, curative, rehabilitative, and palliative care delivered through multiple levels of facilities such as primary care centres, hospitals, specialty units, and public health programs. An effective health care system ensures equitable access, quality of care, financial protection, and continuity of services. It is supported by governance, financing mechanisms, trained human resources, infrastructure, medical technologies, and robust health information systems that work together to improve overall health outcomes. India's health care system involves a three-tier system with Sub-Centre (Urban and Rural), Primary Health Centre (Urban and Rural) and Community Health Centre (Urban and Rural) as the three pillars of Primary Health Care System in the country. Similarly, District Hospital (DH), Sub-District Hospital (SDH) and First Referral Unit - Community Health Centres provide secondary care services whereas Medical Colleges and State-level Institutions provide tertiary care services.

1.2 Ministry of Health and Family Welfare(MoHFW), Government of India provides technical and financial support to the States/UTs to strengthen the public healthcare facilities. To address the healthcare challenges, particularly in rural areas, the National Rural Health Mission (NRHM) was launched in 2005 to supplement the efforts of the State/UT Governments to provide accessible, affordable and quality healthcare to all those who access public health facilities. Currently, NRHM is a sub-mission of "National Health Mission (NHM)". The National Health Mission (NHM) encompasses its two Sub-Missions, **The National Rural Health Mission (NRHM)** and **The National Urban Health Mission (NUHM)**. The main programmatic components include Health System Strengthening, Reproductive-Maternal- Neonatal-Child and Adolescent Health (RMNCH+A), and Communicable and Non-Communicable Diseases. The NHM envisages achievement of universal access to equitable, affordable & quality health care services that are accountable and responsive to people's needs. Support is provided to States/UTs under the National Health Mission (NHM) for strengthening of health care facilities as per norms based on the requirements posed by them in their Programme Implementation Plans (PIPs) and within their overall resource envelope. Under NHM, States/UTs are also supported for several interventions towards strengthening the primary healthcare services in the country. Pradhan Mantri Ayushman Bharat Health Infrastructure Mission (PM-ABHIM) was launched on 25th October 2021 which aims to fill critical gaps in public health infrastructure especially in critical care facilities and primary care in both urban and rural areas. The scheme comprises Central Sector (CS) and Centrally Sponsored Scheme (CSS) components, under which support is provided to States/UTs for strengthening district and block-level health infrastructure, as well as for the expansion of national institutions.

1.3 As on 31st March 2025, the status of health care facilities functioning in the country are given below:

- **Sub-Centres (SCs):** A total of 176021 Sub-Centres are functioning in the country comprising 168364 SCs in rural areas and 7657 SCs in urban areas.

- **Primary Health Centres (PHCs):** 32411 Primary Health Centres are functioning in the country having 25886 PHCs in rural areas and 6525 PHCs in urban areas.

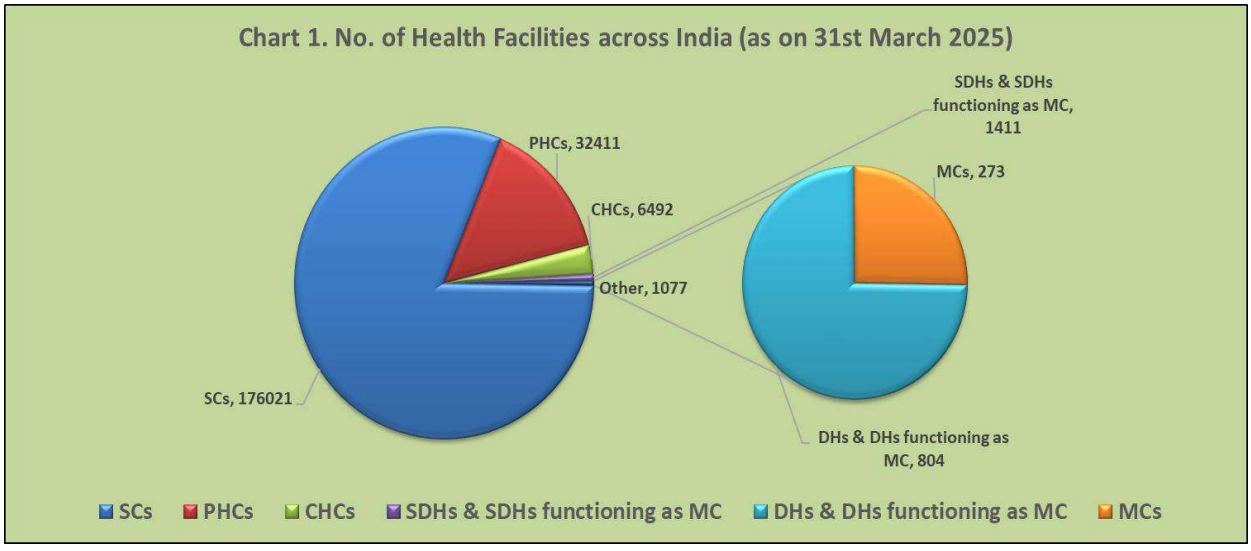

- **Community Health Centres (CHCs):** 6492 Community Health Centres functional in the country consisting of 5663 rural CHCs and 829 urban CHCs.

- **Sub-Divisional / District Hospitals (SDHs):** A total of 1411 Sub Divisional / District Hospitals catering to both rural and urban areas are functioning in the country. Of these, 1408 are Standalone Sub Divisional / District Hospitals, while 3 Standalone Sub Divisional / District Hospitals are functioning as Medical College.

- **District Hospitals (DHs):** A total of 804 District Hospitals catering to both rural and urban areas are functioning in the country. Of these, 677 are Standalone District Hospitals, while 127 are District Hospitals functioning as Medical Colleges.

- **Medical Colleges (MCs):** 273 Standalone Medical Colleges, catering to both rural and urban areas, are functioning in the country.

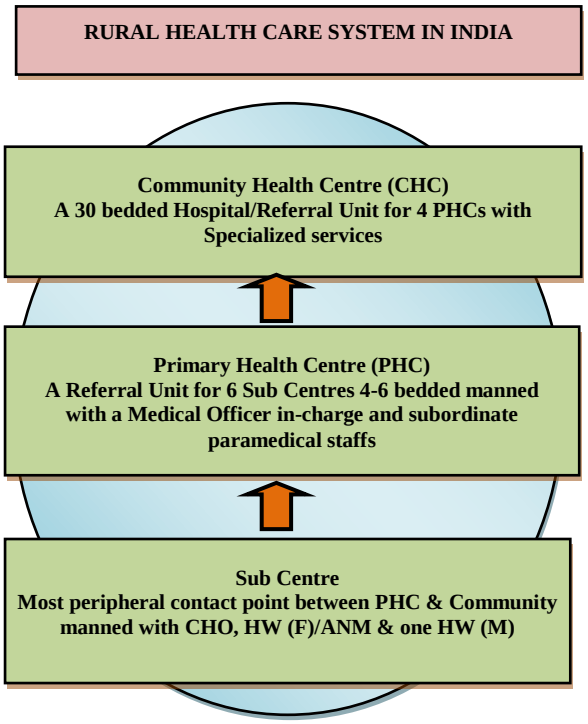

The Chart-1 shows the graphical representation of functional health facilities in India as on 31st March 2025.

Rural Health Care System in India

Structure and Current Scenario

2.1 The health care infrastructure exists as a three-tier system in rural areas of the country based on the following population norms:

Norms for Health Care Infrastructure System in Rural Area

Centre	Population Norms *	
	Plain Area	Hilly/Tribal /Difficult Area
Health Sub Centre	5000	3000
Primary Health Centre	30000	20000
Community Health Centre	120000	80000
*Number of persons covered under the services of a particular Facility (SC, PHC & CHC)		

2.2 168364 Sub-Centres (SCs), 25886 Primary Health Centres (PHCs) and 5663 Community Health Centres (CHCs) are functional in rural areas of the country as on 31st March 2025. The State/UT – wise details of functioning of SCs, PHCs and CHCs in rural areas are given in the Section III, Table 1.

Sub-Centres (SCs)

2.3 The Sub-Centre is the most peripheral and first contact point between the primary health care system and the community. These Sub-Centres are assigned tasks to build interpersonal communication with people in order to bring about behavioral change and provide services in different programmes like maternal and child health, family welfare, nutrition, immunization, diarrhea control and communicable diseases as well as non-communicable diseases. Each Sub-Centre is to be managing by at least one Auxiliary Nurse Midwife (ANM) / Female Health Worker and one Male Health Worker. Under National Health Mission (NHM), there

Section III, Table 1

- ***168364 SCs are functional in the country as on 31st March, 2025.***
- *Highest in Uttar Pradesh (25751) followed by Rajasthan (15118), West Bengal (12901), Andhra Pradesh (11068), Bihar (10854), Maharashtra (10752) and Madhya Pradesh (10150).*

is a provision for one additional second ANM on contract basis. In some places, a Lady Health Visitor (LHV) also gets assigned to supervise six Sub Centres. At National Level, there is an increase of 1134 numbers of SCs in rural areas from the year 2024. Significant increase in number of SCs observed in the States of Rajasthan followed by West Bengal, Uttar Pradesh, Bihar, Assam and Karnataka **(Section I, Comparative Statement 11).** In addition, Community Health Officers (CHOs) are deployed at AAM-SHCs to meet service delivery and programme requirements. As team leads and primary healthcare clinicians, CHOs provide essential healthcare services, oversee the health of communities within their catchment areas, and facilitate effective implementation of various National Health Programmes. 1,16,769 CHOs are in-position in the country as on 31st March 2025. **(Section IV, Table 15)**

Primary Health Centres (PHCs)

2.4 PHC is the first contact point between Village Community and the Medical Officer. The PHCs are envisaged to provide an integrated curative and preventive health care to the rural population with emphasis on preventive and promotive aspects of health care. State Governments is the nodal agency to establish and maintain the PHCs under the Minimum Needs Programme (MNP) / Basic Minimum Services (BMS) Programme. Each PHC is to be managed by a Medical Officer supported by paramedical and other staff. Under the National Health Mission (NHM), there is a provision for two additional staff nurses at PHCs on contract basis. It acts as a referral unit for six Sub Centres and has 4-6 beds for patients. The activities of PHC involve curative, preventive, promotive and family welfare services. At National Level, there is a marginal increase of numbers of PHCs in rural areas from the year 2024. The highest increase in number of PHCs observed in the States of Bihar followed by Maharashtra, Rajasthan, Uttar Pradesh, Telangana and Jharkhand. **(Section I, Comparative Statement 11)**

Section III, Table 1

- ***25886 PHCs are functional in the country as on 31st March, 2025.***
- *Highest in Uttar Pradesh (3030) followed by Rajasthan (2474), Karnataka (2131), Maharashtra (1936), Bihar (1708), Gujarat (1492), Madhya Pradesh (1442) and Tamil Nadu (1415).*

Community Health Centres (CHCs)

2.5 CHCs are established and maintained by the State Government under MNP/BMS programme. It is managed by four Medical Specialist's viz. Surgeon, Physician, Obstetrician / Gynecologist and Pediatrician supported by paramedical and other staff. It has 30 indoor beds with one OT, X-ray, labour room and laboratory facilities. It serves as a referral centre for 4 PHCs and provides facilities for obstetric care and specialist consultations. At National Level, it is observed that 24 numbers of CHCs in rural areas has been increase in 2025 from the year

Section III, Table 1

- ***5663 CHCs are functional in the country as on 31st March, 2025.***
- *Highest in Uttar Pradesh (945) followed by Rajasthan (744), Tamil Nadu (388), Gujarat (353), West Bengal (348), Odisha (331) and Madhya Pradesh (327).*

2024. The highest increase in number of CHCs observed in the States of Uttar Pradesh followed by Chhattisgarh, Rajasthan, Assam and Telangana. **(Section I, Comparative Statement 11)**

2.6 The details of the population norms for each level of rural and tribal health infrastructure and present status against these norms along with some of the parameters at national level with respect to population coverage and area coverage is given in the Box 1.

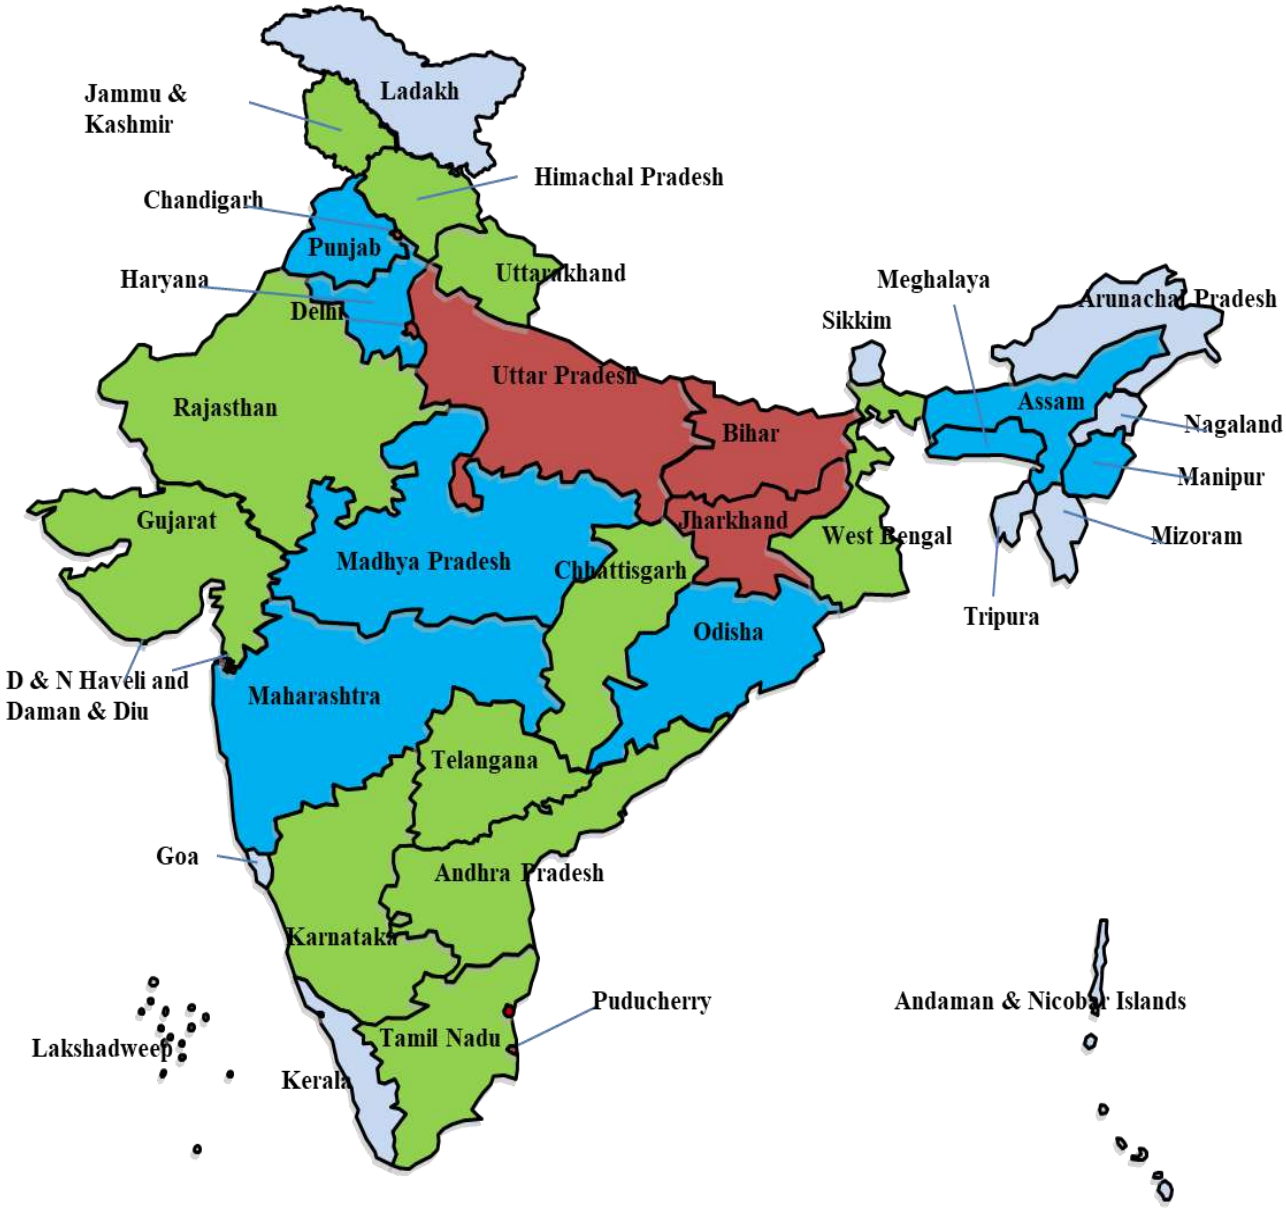

Box 1: Rural Health Infrastructure – Norms* and Level of Achievements (All India)

S. No.	Indicators	National Norms		Status (2025)
1	**Rural Population (as on 1st March 2024) covered by:**	**General**	**Tribal Area**	**Rural Area**
	Sub-Centre (SC)	5000	3000	5398
	Primary Health Centre (PHC)	30000	20000	35107
	Community Health Centre (CHC)	120000	80000	160476
2	Number of Sub-Centres per PHC	6		7
3	Number of PHCs per CHC	4		5
4	**Average Area (Sq. Km) covered by:**			
	Sub-Centre	18.60		
	PHC	101.02		
	CHC	504.33		
5	**Average Radial Distance (KMs) covered by:**			
	Sub-Centre	2.43		
	PHC	5.67		
	CHC	12.67		
6	**Average Number of Villages covered by:**			
	Sub-Centre	4		
	PHC	26		
	CHC	118		

**Number of persons covered under the services of a particular Facility (SC, PHC & CHC)*

2.7 The average population covered by a Sub-Centre, PHC and CHC in rural areas are 5398, 35107 and 160476 respectively as on 31st March, 2025 **(Section VIII, Table 117)**. State-wise average population covered by a Sub-Centre, PHC and CHC are represented in the **Maps 1, 2 and 3** respectively.

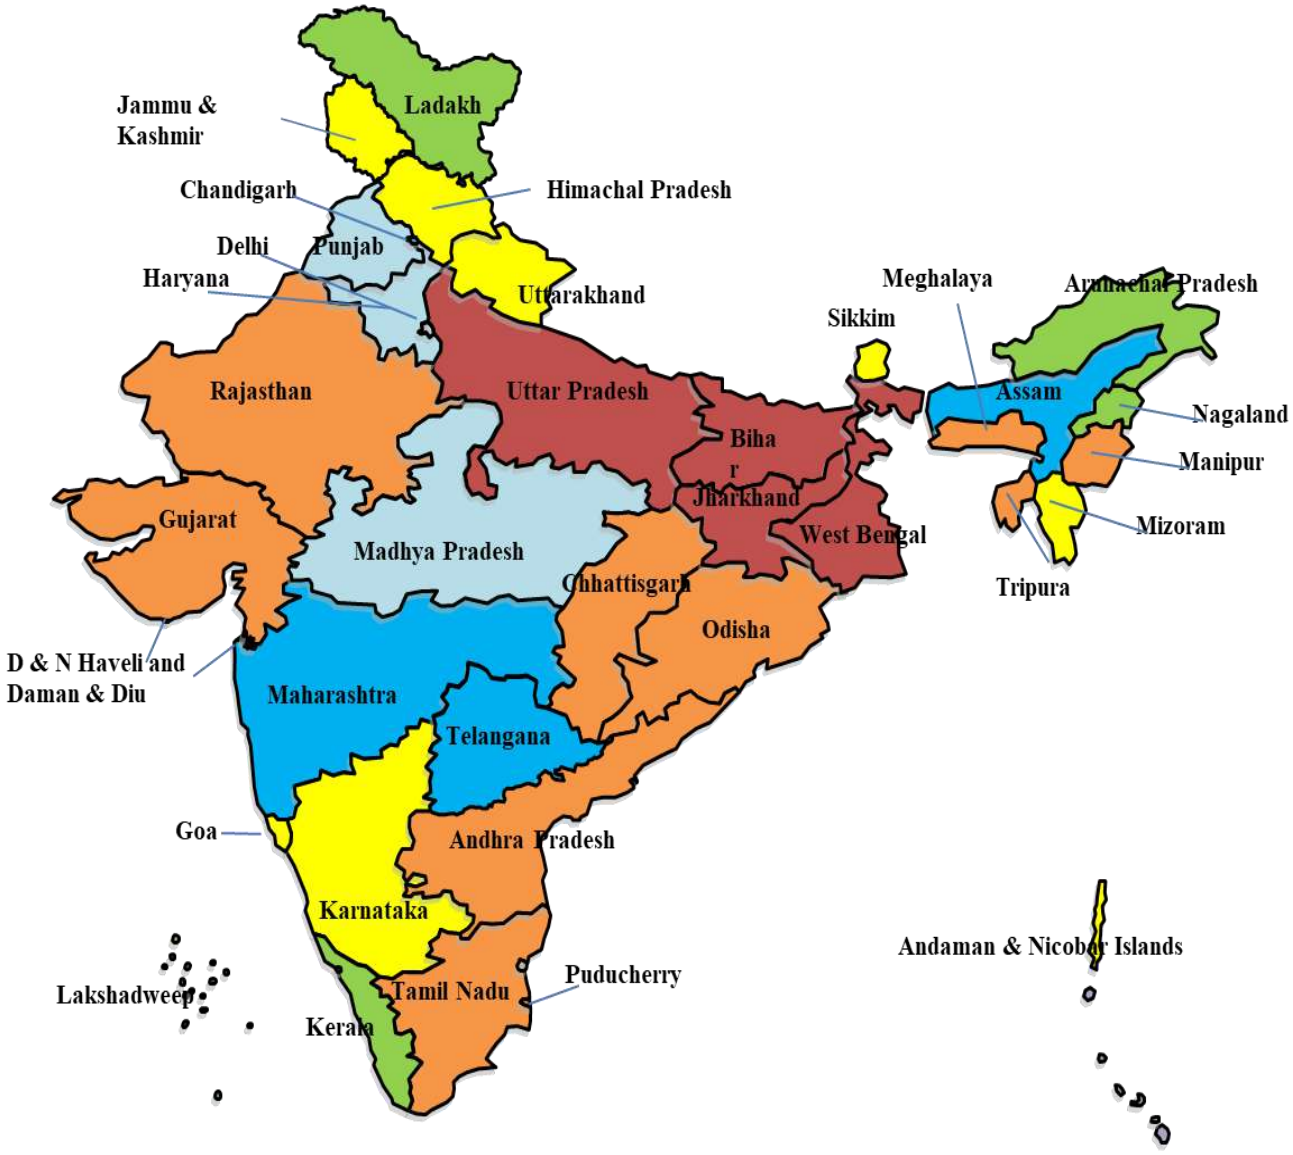

Map 1. Average Rural Population (as on 1st March 2025) Covered by a SC as on 31st March, 2025

Average Rural Population Covered by a SC

- 7000 & above
- 5000 - 7000
- 3000 - 5000
- 0 - 3000

Map 2. Average Rural Population (as on 1st March 2025) Covered by PHC as on 31st March, 2025

Rural Population Covered by a PHC

	50000 & above
	40000 - 50000
	30000 - 40000
	20000 - 30000
	10000 - 20000
	0 - 10000

Map 3. Average Rural Population (as on 1st March 2025) Covered by CHC as on 31st March, 2025

Rural Population Covered by a CHC

200000 - 800000

100000 - 200000

0 - 100000

2.8 In rural areas, majority of the SCs are functioning in the Government Buildings. Despite this, there is still large number of SCs (47202) running in the Rented Buildings and Rent-Free Panchayat / Vol. Society Buildings. Out of 47202 SCs running in the Rented Buildings and Rent-Free Panchayat / Vol. Society Buildings, the share of Andhra Pradesh, Bihar, Uttar Pradesh, Karnataka, Rajasthan, West Bengal and Gujarat is around 60%. Similarly, 1717 PHCs and 91 CHCs are functioning in the Rented Buildings and Rent-Free Panchayat / Vol. Society Buildings. (**Section IV, Table 8, Section V, Table 22, Section VI, Table 50**).

Urban Health Care System in India

3.1 National Urban Health Mission (NUHM) was approved by the Union Cabinet on 1st May, 2013 as a sub-mission under an overarching National Health Mission (NHM). The NUHM framework[1] aims to provide universal access to affordable, equitable and quality comprehensive primary and secondary healthcare services to all sections of the urban population with effective inter-sectoral convergent actions to address wider social determinants of health for providing equitable and quality primary health care services to the urban population with special focus on slum and vulnerable sections of the Society. NUHM seeks to improve health status by facilitating their access to quality primary healthcare.

3.2 The 2013 NUHM framework described the service delivery through two types of fixed health facilities in urban areas, viz. UPHC has a 50,000 population (preferably located within or near slums), and UCHC at 2.5 lakh population (5 lakh in metros). Outreach functions in the catchment area of the UPHC are undertaken by ANMs and ASHAs, with a normative coverage of a population of 10,000 by one ANM and 1000-2500 population by one ASHA. Mahila Arogya Samiti (MAS) is functional in urban areas covering a population of 50-100 households (250- 500 population). The platforms for service delivery have been augmented in IPHS 2022, along with details of service delivery. Urban Health Programme is being implemented through Urban Local Bodies (ULBs), in seven metropolitan cities, viz., Mumbai, New Delhi, Chennai, Kolkata, Hyderabad, Bengaluru and Ahmedabad. For the remaining cities, the State Health Department decides whether the Urban Health Programme is to be implemented through health department or any other urban local body.

Various Levels of Urban Health Facilities

3.3 The NUHM framework 2023 envisages the following four levels of urban health facilities to provide comprehensive primary and secondary care services to the entire urban population.

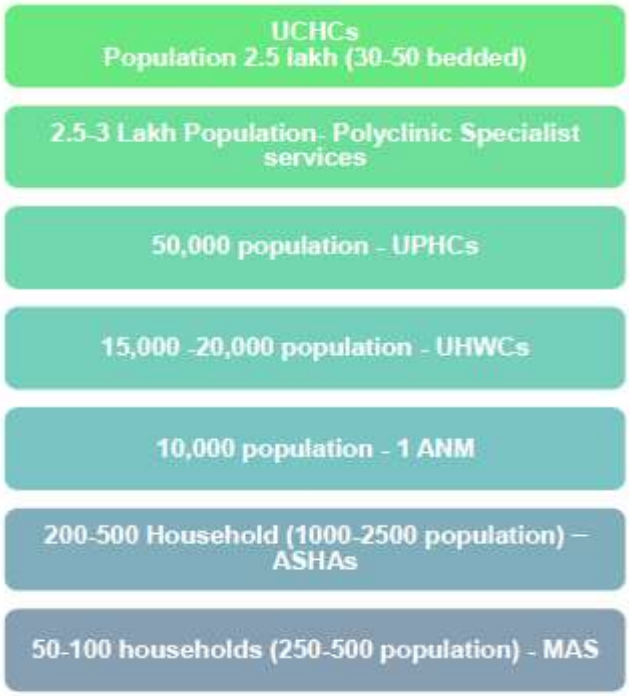

- **Urban Health and Wellness Centre (UHWC)** will be established for a 15,000-20,000 urban population. It is suggested that the construction of UHWCs be undertaken wherever suitable land is available within 2-3 km of the periphery of the slum/slum like population. The location and population coverage of the Urban HWCs could be flexible depending on population densities and the presence of vulnerable and marginalized population subgroups. The urban HWCs are expected to increase their reach in urban areas and cover the vulnerable and the marginalized by acting as satellite centres to be established under the UPHCs. Each UPHC that caters to a population of approximately 50,000 is expected to have 2-3 UHWCs under it, depending on the vulnerable population of the urban local body.
- **Urban Primary Health Centre-HWC (UPHC)** at 30,000-50,000 urban population (to saturate all urban areas)
- **Specialist UPHC/Polyclinic** at 2.5-3 lakh population by strengthening one out of 5-6 existing UPHCs.

[1] Source: National Urban Health Mission- Framework 2023

- **Urban Community Health Centre (UCHC)**: UCHCs (30-50 bedded in-patient facilities), which were envisaged under the 2013 framework, are minimally functional or even non-functional in most of the states/UTs. The Medical Colleges providing tertiary care in urban areas are still overcrowded with patients seeking secondary as well as tertiary care. Hence, there is a need for an assured secondary care facility in urban areas through defining and implementing a robust referral network. The UCHCs, as defined under IPHS 2022, should provide assured secondary care services to 2.5 lakh population in non-metros and five lakhs in metros. *(Can be optional if assured secondary care through SDH/DH is available).*

Where existing UCHCs are available, they can either be upgraded to function as a full-fledged 50-bedded secondary care facility like SDH (100-bedded in metros and 50-bedded in non-metros) with a complete range of secondary care services (as defined under IPHS 2022), or they may be converted into polyclinics with all assured services. NUHM is designed to provide health services at the facility and community level. Urban Health Care Delivery Model envisages following components:

Urban Health Services

3.4 The States and UTs have the flexibility to plan the various levels of health facilities in any given City/District based on a critical gap analysis of the total urban population, existing health facilities (*UPHC, UCHC, SDH or a DH or any State level Dispensaries / Public Health Facilities)* and the required numbers of urban health facilities as per their local context and needs. The number of urban health facilities may be planned to saturate the entire urban population in the City/District. The UHWCs covering the 15,000-20,000 population may be established in peri-urban/outgrowth areas if they have no existing health facilities. In some states, pre-existing UPHCs are functioning as 24x7 UPHCs-HWCs with indoor beds and providing delivery services. Such facilities shall continue to function as 24x7 facilities.

The States would have the flexibility for establishing UPHC-HWCs at 30,000-50,000 urban population and 15000- 20000 population through UHWCs as per the local context.

Service Provisions under Urban Public Health Facilities

3.5 The IPHS 2022 has defined population norms, as well as the norms for infrastructure, human resources, beds, services, medicines, and diagnostics at UCHCs, UPHC, 24x7 UPHC, Polyclinic and UHWCs. All urban health facilities need to comply with the IPHS 2022 norms and build public health facilities resilient to any future pandemic or calamities. This will continue to be supported under NHM within the permissible resource envelopes of states and UTs.

Service Provisions

Urban Health and Wellness Centres	• To provide all 12 packages of services envisaged under Ayushman Bharat-Comprehensive Primary Healthcare. • To provide routine OPD care including preventive, promotive, rehabilitative, and palliative care along with other public health interventions. • National health programmes with a focus on preventive/promotive activities, population-based screening, assured medicines, diagnostics, teleconsultation, need-based outreach activities and public health actions. • Enable strengthening the continuum of care through providing access to high-quality care closer to the urban community, ensuring upward and downward linkages, minimizing out-of-pocket expenditure, and acting as gatekeepers to decongest secondary and tertiary health care facilities. • Enable improved disease surveillance and reporting for epidemics/ outbreaks and risk factor mitigation through health promotion and wellness activities.
Urban Primary Health Centre	• To provide all 12 packages of services envisaged under Ayushman Bharat-Comprehensive Primary Healthcare. • To provide routine OPD care including preventive, promotive, rehabilitative, and palliative care along with other public health interventions.
Polyclinics	• In urban areas, currently, 5-6 UPHCs are catering to a population of 2.5-3 lakhs; one of the UPHCs, among these 5-6 UPHCs, would be identified to be upgraded as a Polyclinic (depicted in image below). • Ensure a continuum of care by providing specialty services (medicine, obstetrics and gynecology, paediatrics, ophthalmology, dermatology and psychiatry) closer to the community. • Polyclinic should plan and provide oral, physiotherapy and/or optometrist services also, as per local requirements. • Diagnostic services for all the specialties concerned along with point-of-care testing should be made available at polyclinics. • Some of the specialized services such as X-ray, USG, CT scan, etc. are not essentially needed to be there but if required can be linked with the facility available nearby like FRU CHC, SDH or DH. • For areas with functional Urban CHCs (UCHCs) providing specialist services, separate polyclinics may not be required.
Urban Community Health Centres	• If UCHCs are non-functional and a functional SDH exists, the States can strengthen SDH to provide secondary care services instead of creating a new UCHC. The District Hospital would be the apex referral centre for every district/city for the urban population. • The services at UCHC will include emergency services, OPD services, integrated counselling services, IPD services, diagnostics and referral services. • NHPs should be delivered through the UCHCs with Integration with other existing programmes to provide comprehensive services.

Polyclinic and its linkages with UPHCs

3.6 The UHWCs and UPHCs would serve as AB HWCs and provide comprehensive primary care through the expanded range of services covered, namely:

i. Care in pregnancy and childbirth
ii. Neonatal and infant health care services
iii. Childhood and Adolescent health care services
iv. Family planning, Contraceptive services and other Reproductive Health Care services
v. Management of Communicable diseases, including National Health Programmes
vi. Management of Common Communicable Diseases and Outpatient care for acute simple illnesses and minor ailments
vii. Screening, Prevention, Control and Management of Non-Communicable diseases
viii. Care for Common Ophthalmic and ENT problems
ix. Basic Oral health care
x. Elderly and Palliative health care services
xi. Emergency Medical Services
xii. Screening and basic management of Mental health ailments

Structure and Current Scenario

3.7 As on 31st March 2025, there are 7657 SCs, 6525 PHCs and 829 CHCs are functional in urban areas of the country **(Section III, Table 1)**.

3.8 Against the functional U- PHCs, there is a shortfall of 37.1% of U-PHCs as per the urban population norms. However, the States/UTs of Andhra Pradesh, Himachal Pradesh, Meghalaya, Andaman & Nicobar Island, Chandigarh and Jammu and Kashmir where U-PHCs exists over and above the requirement **(Section III, Table 5)**.

3.9 Majority of the U-PHCs are functioning in the Government Buildings. However, there is still large number of U-PHCs running in the Rented Buildings and Rent-Free Panchayat / Vol. Society Buildings which need to be constructed on priority basis. Out of 1918 U-PHCs

running in the Rented Buildings and Rent-Free Panchayat / Vol. Society Buildings, the share of Andhra Pradesh, Bihar, Karnataka, Uttar Pradesh, Delhi, Madhya Pradesh, Gujarat, Telangana and Haryana is around 77%. Similarly, out of 829 U-CHCs, 813 U-CHCs are functioning in the Government Building (**Section V, Table 23 and Section VI, Table 51**).

Other Public Health Facilities

4.1 In addition to the public health infrastructure managed by the State Governments and Union Territories, healthcare services are also provided through various other public health systems under the Central Government and other public sector organisations. These include the Central Armed Police Forces (CAPFs), Ministry of Home Affairs; Ministry of Railways; Employees' State Insurance Corporation (ESIC), Ministry of Labour & Employment; Employees' State Insurance Scheme (ESIS), Central Government Health Scheme (CGHS) and other Central Government Public Health Institutions like AIIMS, PGI, JIPMER, etc.

4.2 In order to provide the complete picture of public health facilities in the country, requisite data been has been compiled from the other public health facilities. The details of these health facilities are given below:

CENTRAL ARMED POLICE FORCES (CAPFs)

4.3 The Central Armed Police Forces (CAPFs) play a vital role in maintaining internal security, safeguarding the nation’s borders, protecting vital installations and undertaking a wide range of operations in difficult, remote and hostile environments. The CAPFs comprise the Assam Rifles, Border Security Force (BSF), Central Industrial Security Force (CISF), Central Reserve Police Force (CRPF), Indo-Tibetan Border Police (ITBP), National Security Guard (NSG) and Sashastra Seema Bal (SSB). Personnel of these forces are deployed across diverse geographical and climatic conditions and are often required to perform duties in challenging operational circumstances. Ensuring timely and appropriate healthcare services for these personnel is therefore essential for maintaining their health, well-being and operational preparedness.

4.4 To meet these healthcare requirements, a comprehensive network of medical facilities and hospitals has been established for CAPF personnel and their eligible dependents. The healthcare infrastructure includes Unit Hospitals, Composite or Combined Hospitals and higher-level referral facilities, supported by specialist and ancillary services. These institutions provide medical care to personnel irrespective of their respective force affiliation, particularly in situations requiring specialized treatment or referral services. The network is designed to ensure the availability of healthcare services at different levels, ranging from routine primary and outpatient care to specialized and tertiary-level treatment.

4.5 CAPF medical institutions provide a broad range of preventive, promotive, curative, emergency and rehabilitative healthcare services. These include outpatient and inpatient care, emergency medical services, specialist consultations, diagnostic investigations, surgical procedures and referral services. The facilities are supported by doctors, medical specialists, nursing personnel, pharmacists, laboratory technicians, physiotherapists and other healthcare and support staff. Diagnostic and ancillary services, including laboratories, radiology and physiotherapy, further strengthen the capacity of these institutions to provide comprehensive medical care.

4.6 In addition to the healthcare facilities operated within the CAPF system, the Ayushman CAPF initiative has further expanded access to medical services by facilitating cashless treatment through empanelled hospitals. This arrangement enables eligible CAPF personnel and their dependents to access healthcare services from a wider network of healthcare providers, particularly where treatment facilities are not available within the force's own medical infrastructure. Together, the institutional healthcare facilities and empanelled healthcare network contribute towards providing comprehensive and accessible healthcare support to CAPF personnel and their families.

4.7 As on 31st March 2025, a total of 647 health facilities functioning in the country with a total of bed capacity of 8,291. The details of CAPF health facilities are given in **Section IX, Table 120 and Table 121**.

RAILWAY HEALTH FACILITIES

4.8 Indian Railways has established an extensive healthcare delivery system to provide medical services to railway employees, their dependent family members and other eligible beneficiaries. As one of the largest public sector organizations in the country, Indian Railways employs a large workforce distributed across numerous railway zones, divisions, production units and other establishments. The geographically dispersed nature of railway operations and the need to maintain the health and fitness of its workforce have resulted in the development of a comprehensive network of healthcare facilities across the country.

4.9 The railway healthcare system comprises hospitals, divisional hospitals, sub-divisional hospitals, health units and other medical facilities located in different parts of the country. These facilities provide healthcare services at various levels and are designed to meet the routine, emergency and specialized healthcare requirements of railway beneficiaries. Railway hospitals and associated healthcare institutions form an important component of the organisational support system for employees and their families.

4.10 The healthcare facilities under Indian Railways provide a wide range of preventive, promotive, curative and emergency healthcare services. These include outpatient consultation, inpatient treatment, specialist services, diagnostic investigations, emergency care, surgical procedures and referral services. The institutions are supported by doctors, medical specialists, nursing personnel, pharmacists, laboratory technicians, radiographers and other paramedical and healthcare professionals. The availability of such human resources and infrastructure enables railway healthcare institutions to provide comprehensive medical services to beneficiaries.

4.11 Emergency medical services are another important component of the railway healthcare system. Given the extensive railway network and the large number of passengers and employees associated with railway operations, hospitals and medical facilities may be required to provide emergency medical support in a variety of circumstances. The railway healthcare infrastructure therefore contributes to the overall preparedness of Indian Railways for responding to medical emergencies and other health-related contingencies.

4.12 Through its network of hospitals, health units and other medical facilities, Indian Railways provides accessible healthcare services to a large population of employees and their eligible family members. The railway healthcare system thus represents an important institutional healthcare network within the public sector, contributing to employee welfare, occupational health and the overall health and well-being of railway beneficiaries across the country.

4.13 As on 31st March 2025, a total of 710 health units and hospitals functioning in the country with a total of bed capacity of 13,759. The details of railways health facilities are given in the **Section X, Table 125**.

ESIC HOSPITALS AND ESIS HOSPITALS & DISPENSARIES

4.14 The Employees' State Insurance Corporation (ESIC) and the Employees' State Insurance Scheme (ESIS) constitute an important component of the social security and healthcare system for workers in the organized sector. The healthcare system has been developed to provide comprehensive medical care to insured persons and their dependent family members under the Employees' State Insurance Scheme. Through an extensive network of hospitals, dispensaries and other healthcare institutions, the ESIC and ESIS system provides healthcare services to eligible beneficiaries across different parts of the country.

4.15 The healthcare delivery system comprises ESIC Hospitals, ESIS Hospitals, dispensaries and other healthcare facilities. While ESIC directly manages and operates healthcare institutions in various locations, State Governments also administer ESIS Hospitals and Dispensaries under the Employees' State Insurance Scheme. This combined institutional arrangement enables the Scheme to provide healthcare services through a network extending across multiple States and Union Territories.

4.16 ESIC and ESIS healthcare institutions provide a broad spectrum of preventive, promotive, curative and rehabilitative healthcare services. The services include outpatient consultations, inpatient treatment, specialist care, diagnostic investigations, emergency services, medicines, surgical care and referral services. Dispensaries play an important role in providing accessible primary-level medical services and routine outpatient care to beneficiaries, while hospitals provide inpatient and specialist services. The institutions are supported by doctors, medical specialists, nursing personnel, pharmacists, laboratory technicians, radiographers and other paramedical and healthcare professionals. The availability of trained human resources, together with diagnostic, treatment and referral facilities, enables these institutions to address a wide range of healthcare requirements of insured persons and their families.

4.17 The ESIC and ESIS healthcare network also plays an important role in providing continuity of care to beneficiaries. Patients requiring specialized or higher-level treatment may be referred to appropriate facilities within the institutional network or to other authorized

healthcare institutions. The integration of dispensary-level, hospital-level and referral services helps ensure that beneficiaries can access healthcare services according to their medical requirements.

4.18 By providing comprehensive and organized healthcare services to insured workers and their families, ESIC and ESIS institutions contribute significantly to employee welfare and social security. The network of hospitals and dispensaries helps ensure access to affordable and quality healthcare services for a large section of eligible workers. The continued strengthening of healthcare infrastructure and human resources within the ESIC and ESIS system remains important for meeting the changing healthcare requirements of insured persons and their dependents.

4.19 As on 31st March 2025, ESIC has 59 hospitals with 15,370 sanctioned beds, of which 11,313 beds are commissioned. The ESIS has 1,709 hospitals and dispensaries, with 42,440 sanctioned beds and 30,685 commissioned beds. The details of ESIC/ESIS health facilities are given in the **Section XI, Table 129 and Table 131**.

CENTRAL GOVERNMENT HEALTH SCHEME (CGHS)

4.20 The Central Government Health Scheme (CGHS), administered by the Ministry of Health and Family Welfare, Government of India, is a comprehensive healthcare scheme established to provide medical care to eligible Central Government employees, pensioners and other entitled categories of beneficiaries. The Scheme is an important component of the healthcare and welfare arrangements available to Central Government beneficiaries and provides access to a range of medical services through its network of healthcare facilities and empanelled service providers.

4.21 CGHS caters to the healthcare needs of eligible beneficiaries associated with different components of the Central Government and other entitled categories. The Scheme provides healthcare services to beneficiaries through a structured system that includes CGHS Wellness Centres and other healthcare facilities, supplemented by empanelled hospitals, diagnostic centres and laboratories.

4.22 CGHS Wellness Centres serve as an important point of access for beneficiaries seeking routine medical care and related services. The Scheme provides a range of preventive, promotive and curative healthcare services, including outpatient consultation, specialist services, medicines, diagnostic investigations, hospitalization and referral services. Beneficiaries requiring specialized treatment may access services through government or empanelled healthcare institutions in accordance with the provisions of the Scheme.

4.23 The healthcare delivery mechanism of CGHS combines direct service provision through its own facilities with services obtained through empanelled hospitals and diagnostic centres. This arrangement expands the range and geographical availability of healthcare services accessible to beneficiaries. It also facilitates access to specialized medical treatment

and advanced diagnostic services where such facilities may not be available at the primary level of the Scheme.

4.24 The healthcare services are supported by doctors, specialists, nursing personnel, pharmacists, laboratory personnel and other healthcare professionals. The Scheme places importance on providing comprehensive healthcare support to beneficiaries and ensuring access to necessary medical consultation, medicines, investigations and treatment.

4.25 Through its network of Wellness Centres, healthcare facilities and empanelled institutions, CGHS plays an important role in ensuring accessible, comprehensive and cost-effective healthcare services for eligible Central Government beneficiaries and their families. The Scheme continues to serve as a major institutional healthcare mechanism for a significant population of serving and retired Central Government employees.

4.26 As on 31st March 2025, a total of 483 health facilities functioning in the country with a total of bed capacity of 65. The details of CGHS health facilities are given in the **Section XII, Table 133**.

CENTRAL GOVERNMENT PUBLIC HEALTH FACILITIES

4.27 Central Government Public Health Facilities constitute an important component of India's public healthcare infrastructure and include a wide range of premier medical institutions, hospitals and specialized healthcare establishments established and supported by the Government of India. These institutions include the All India Institutes of Medical Sciences (AIIMS), Postgraduate Institute of Medical Education and Research (PGIMER), Jawaharlal Institute of Postgraduate Medical Education and Research (JIPMER), National Institute of Mental Health and Neuro Sciences (NIMHANS), and other specialized Institutions and Institutes of National Importance.

4.28 These institutions have been established to provide advanced and comprehensive healthcare services and also serve as important centres for medical education, training, research and specialized healthcare delivery. Many of these facilities function as tertiary and quaternary referral institutions and receive patients from different States and Union Territories, particularly those requiring specialized or advanced treatment.

4.29 Central Government Public Health Facilities provide a broad range of preventive, promotive, curative, rehabilitative and tertiary healthcare services. Their service portfolio includes outpatient and inpatient care, specialized medical and surgical services, emergency care, intensive care, advanced diagnostic facilities and super-speciality treatment. The institutions are equipped to manage complex medical conditions and provide treatment in specialized disciplines that may require advanced infrastructure and highly trained healthcare professionals.

4.30 In addition to healthcare service delivery, these institutions play a major role in medical and health sciences education. They provide undergraduate, postgraduate and super-

specialty education and training in medicine, nursing and other health-related disciplines. The training of doctors, specialists, nurses, allied health professionals and researchers contributes significantly to the development of the country's healthcare workforce.

4.31 Research is another important function of these premier institutions. They undertake clinical, biomedical and public health research and contribute to the development of new knowledge, treatment protocols, technologies and healthcare practices. Research undertaken by these institutions supports evidence-based healthcare and contributes to addressing emerging and complex health challenges.

4.32 The functioning of Central Government Public Health Facilities is supported by a wide range of healthcare professionals, including doctors, specialists, surgeons, nursing personnel, paramedical professionals, laboratory personnel, pharmacists, researchers and other technical and support staff. The availability of specialized human resources, advanced medical infrastructure and research capacity enables these institutions to function as centres of excellence.

4.33 Central Government Public Health Facilities therefore make a significant contribution to India's healthcare delivery system. In addition to providing specialized and advanced medical care, they strengthen the health system through medical education, human resource development, research, innovation and the establishment of standards and protocols for quality healthcare. As major referral and centres of excellence, these institutions complement the healthcare services provided by State Governments and other public health institutions and contribute substantially to improving access to advanced healthcare services across the country.

4.34 As on 31st March 2025, a total of 44 functional Central Government Public Health Facilities have been included in the publication with a total of bed capacity of 33,570. The details of central government health facilities are given in the **Section XIII, Table 136**.

India & States/ UTs Profile

India

- **Number of Districts: 774**
